Final Program

Trauma and Public Health: Innovative Technology and Knowledge Dissemination

November 10 – 12, 2016
Pre-Meeting Institutes, November 9
Sheraton Dallas Hotel
Dallas, Texas USA
The ISTSS 32nd Annual Meeting is supported in part by:

**Silver Supporter**
Wiley

**Bronze Supporter**
Elsevier

**Non-Profit Sponsorship Program:**
Meeting Bag – Cohen Veterans Network
Dear Colleagues,

Welcome to the ISTSS 32nd Annual Meeting! The theme of this year’s meeting is “Trauma and Public Health: Innovative Technology and Knowledge Dissemination.”

Trauma and trauma-related disorders are significant public health issues that require interdisciplinary approaches including epidemiology, biostatistics and health services research. Advances in assessment, treatment and prevention efforts and knowledge translation are of critical importance if we are to increase public awareness and destigmatize trauma-related disorders. The use of Innovative Technology is closely tied to public health strategies. Through modern technologies, including media and internet usage, knowledge translation has increased. Research has a greater impact on clinical practice, just as practice is informing the research agenda. Innovative technologies are being used in treatment and research, and new clinical tools such as e-health and online therapy, as well as those that aid supervision, have improved the speed and quality of treatment.

In this era of exciting methodological innovations and worldwide globalization, the aims of this meeting are to integrate research, clinical practice, and public health initiatives and facilitate the transference and implementation of knowledge. This meeting features the ways that new, exciting, and innovative technologies are being used to advance the field of trauma, including their potential to improve existing treatment interventions and to facilitate the development of new treatment interventions. Recognized trauma experts from around the world will share their work.

Moreover, panels and workshops will provide a lively forum for critical discussions on what we have learned so far. In addition to high-quality, scientific contributions, there are ample opportunities to reflect on the topics that need to be addressed from a clinical point of view and the challenges in clinical practice that hamper optimal implementation of effective interventions. All in all, this meeting will invite attendees to broaden their perspectives, intensify the clinician-researcher dialogue, and promote more interdisciplinary collaborative learning.

We specifically would like to invite you to join the Wednesday evening opening ceremony featuring the panel “Responding to Terror Attacks: What are the Right Ways to Act?” Experts from different places that experienced terror attacks – Oslo, London, Paris and the USA – will share their experiences related to immediate reactions from the respective communities, as well as their initial and ongoing efforts to organize help for the survivors and to learn from these incidents as a way to inform and direct future work.

For up-to-date information, please visit www.istss.org.

We look forward to welcoming you to Dallas for an outstanding educational event.

Christian Schmahl, MD (Chair, Scientific Committee),
Paul Frewen, PhD (Co-Chair, Scientific Committee)

Joanne Davis, PhD (Chair, Organizing Committee),
Rochelle Hanson, PhD (Co-Chair, Organizing Committee)

Grete Dyb, MD, PhD (ISTSS President)

General Information

Registration
The ISTSS Registration and CE/Membership Services desks are located on the first floor of the conference center, and will be open at the following times:

- Tuesday, November 8: 4:00 p.m. – 6:00 p.m.
- Wednesday, November 9: 7:30 a.m. – 6:30 p.m.
- Thursday, November 10: 7:30 a.m. – 6:00 p.m.
- Friday, November 11: 7:30 a.m. – 6:00 p.m.
- Saturday, November 12: 7:30 a.m. – 4:30 p.m.

Participation in the ISTSS 32nd Annual Meeting is limited to registered delegates.
Your full registration includes:
- Education sessions and materials
- Admission to all program sessions (except Pre-Meeting Institutes, which require an additional fee)
- Admission to poster sessions
- PDF Final Program, Online Conference App and access to online itinerary builder

Networking/Social Events
- Welcome Reception with Featured Poster Presentations
- Morning coffee and tea networking opportunities
- Special Interest Group (SIG) meetings
- Conference Sessions
- Keynote Addresses with Award Presentations
- Invited Sessions
- Master Clinician Series
- Master Methodologist Series
- Annual Business Meeting
- Committee and Task Force Meetings
- Student Poster Award
- Internship and Postdoctoral Program Networking Fair
- Exhibits of products and services
- ISTSS Bookstore

Contemplation and Reflection Room
Trinity 2, third floor, South Tower elevator, Hotel side
A special room has been set aside for quiet reflection, prayer and meditation.

- Wednesday, November 9: 7:00 a.m. – 5:00 p.m.
- Thursday, November 10: 7:00 a.m. – 5:00 p.m.
- Friday, November 11: 7:00 a.m. – 5:00 p.m.
- Saturday, November 12: 7:00 a.m. – 5:00 p.m.

Family Room
Trinity 3, third floor, South Tower elevator, Hotel side
A room has been set aside for parents in need of a private space for caring for their infants. A signup sheet is at the door to reserve times.

ISTSS Awards
The ISTSS Awards will be presented during the morning Keynote Plenary Sessions at 8:30 a.m. each morning.

Thursday, November 10:
• Frank W. Putnam trauma research Scholars
• ISTSS Lifetime Achievement Award

Friday, November 11:
• Public Advocacy Award
• Robert S. Laufer Award for Outstanding Scientific Achievement
• Chaim and Bela Danieli Young Professional Award

Saturday, November 12:
• Dart Awards for Excellence in Coverage of Trauma
• Frank Ochberg Award for Media and Trauma Study
• Student Poster Award

Student Poster Award
ISTSS will present the annual Student Poster Award at the Saturday morning Keynote Plenary, November 12 at 8:30 a.m. The winner will receive a complimentary 2017 meeting registration, with additional presenters receiving honorable mention certificates.

Speaker Ready Room
State Room 2, Conference Center Third Floor
If you plan to use audiovisual aids (i.e. PowerPoint slides) during your presentation, visit the speaker ready room before your presentation. The room is equipped with much of the same audiovisual setup as session rooms, so you may test your materials and rehearse your presentation.

American Psychological Association
Dana Gittings
750 First Street, NE
Washington, DC 20002-4242
Tel: +1-202-218-3980
Fax: +1-202-336-6191
Email: dgittings@apa.org

American Psychological Association is the premier source for information in psychology. APA delivers this information through its expansive collection of books, journals, newsletters, electronic products and its website, www.apa.org.

Center for the Study of Traumatic Stress
Holly Mash
USUHS
Dept. of Psychiatry
4301 Jones Bridge Rd.
Bethesda, MD 20814
Tel: +1-301-295-2969
Fax: +1-301-319-6965
E-mail: holly.herberman-mash.ctr@usuhs.edu

The Center for the Study of Traumatic Stress (CSTS), directed by Robert Ursano, M.D., with Scientific Director Carol Fullerton, Ph.D. is affiliated with the Department of Psychiatry at the Uniformed Services University of the Health Sciences in Bethesda, Maryland. The CSTS is internationally recognized for research, education and consultation on the psychological and behavioral effects of trauma and disaster on individuals, families, communities and the workplace.

Cohen Veterans Network
Anthony Hassan
72 Cummings Point Rd.
Stanford, CT 06902
Tel: +1-203-569-0280
E-mail: anthony.hassan@cohenveteransnetwork.org

The Cohen Veterans Network (CVN) is a 501(c)(3) nonprofit foundation whose mission is to improve the quality of life for post-9/11 veterans and their families by focusing on improving mental health outcomes. The goal of Cohen Veterans Network is to build a network of free or low-cost outpatient mental health clinics for veterans and their families in high-need communities, in which trained clinicians deliver holistic evidence-based care to treat mental health conditions.

Department of Veterans Affairs
Orlando Austin
1250 Poydras St.
Suite 1000
New Orleans, LA 70113
Tel: +1-225-274-5382
E-mail: orlando.austin@va.gov

Findaway
Fran Paez
31999 Aurora Rd.
Salon, OH 44139
Tel: +1-440-394-0619
Fax: +1-440-893-0809
Email: fpaez@findaway.com

Findaway's Therapeutic Playaway is a handheld all-in-one audio player pre-loaded with topic specific guided imagery audio programs for patients suffering from PTSD and most mental health concerns. They are an adjuvant treatment tool that works powerfully with other treatments without competing with them. Therapeutic Playaways are a better alternative to smart phones, where the bells and buzzes of incoming messages can prematurely pull them from their therapeutic meditative state and back to their worries.

Institute on Violence Abuse & Trauma
Bob Geffner
10065 Old Grove Rd
San Diego, CA 92131
Tel: +1-858-527-1860
E-mail: bgeffner@pacbell.net

The Institute on Violence, Abuse & Trauma (IVAT) and the Family Violence & Sexual Assault Institute (FVSAI) work together as comprehensive resource, training and professional services centers concerned with all aspects of violence, abuse and trauma. IVAT/FVSAI bridge gaps and help improve systems of care on local, national and global levels through collaborations. IVAT/FVSAI offer professional training, continuing education, certifications, publications and journals, a bookstore, professional clinical and forensic services, research, program evaluations, two annual international summits, and think tanks.

MHA-NYC (Disaster Distress Helpline)
Christian Burgess
50 Broadway, 19th Floor
New York, NY 10004
Tel: +1-212-614-6346
Email: cburgess@mhaofnyc.org

The national Disaster Distress Helpline (DDH) is a program of the Substance Abuse and Mental Health Services Administration that provides 24/7/365 crisis counseling and support to anyone in the U.S./territories struggling with...
emotional distress or other mental health concerns related to any natural or human-caused disaster. Calls (1-800-985-5990) and texts (text “TalkWithUs” to 66746) are answered by trained counselors from a network of crisis centers across the country. For more information visit http://disasterdistress.samhsa.gov

River Oaks Hospital
Lisa Lucas
1525 River Oaks Road West
New Orleans, LA 70123
Tel: +1-800-366-1740
Fax: +1-504-733-7020
Email: lisa.lucas@uhsinc.com

When outpatient and inpatient stabilization programs have been unsuccessful in containing self-destructive symptoms, individuals may require the intensive inpatient treatment offered at The New Orleans Institute at River Oaks Hospital. Since 1989, thousands of individuals from the U.S., Canada, Europe and South America have received this specialized care for trauma-based disorders (childhood or adult onset), compulsive behaviors, eating disorders and post-traumatic stress. Specialized treatment is also available for members of the military and their families.

Routledge/Taylor & Francis
Caitlin O’Malley
530 Walnut St.
Suite 850
Philadelphia, PA 19106

Fax: +1-215-207-0048
E-mail: caitlin.o’malley@taylorandfrancis.com

Routledge Journals, a division of Taylor & Francis, is a leading publisher of Trauma and Stress research. Find our journals online at www.tandfonline.com, and look at our entire Trauma & Stress portfolio at http://www.tandf.co.uk/journals/catalogue/trauma.pdf.

Somatic Experiencing Trauma Institute
Amber Rhodes
6685 Gunpark Dr., #210
Boulder, CO 80301
Tel: +1-303-652-4035
E-mail: info@traumahealing.org

The Foundation for Human Enrichment, serving the community through the Somatic Experiencing® Trauma Institute, is dedicated to resolving trauma worldwide by providing state-of-the-art professional training and public education in Somatic Experiencing® (SE™). SE is a powerful psychobiological method for addressing physical and emotional trauma, PTSD, overwhelm, and stress related conditions. Through our professional membership association we support the self-organization of a broad international network of passionate and skillful SE practitioners who serve individuals in need and communities in crisis around the globe.

The Trauma Disorders Program at Sheppard Pratt
Chelsea Soobitsky
6501 N. Charles St.
Baltimore, MD 21204
Tel: +1-410-938-3133
E-mail: cssoobitsky@sheppardpratt.org

The Trauma Disorders Program, part of the Sheppard Pratt Health System, is a nationally and internationally recognized program for the treatment of individuals with trauma-related conditions including dissociative disorders and other complex post-traumatic conditions. It is comprised of a 22-bed coed inpatient unit, an outpatient program, a postdoctoral fellowship program, and research and consultation components. Our inpatient program, has received referrals from across the US and from Canada, and utilizes an intensive multidisciplinary treatment approach through individual therapy, milieu therapy, and process-oriented, experiential, and psychoeducational group therapies to assist with recovery and return to the community.

Wiley
Daisy Guerrero
111 River Street
Hoboken, NJ 07080
Tel: +1-781-388-8313
E-mail: info@wiley.com

Wiley is a global provider of knowledge and knowledge-enabled services in areas of research, professional practice and education. Developing digital education, learning, assessment and certification, partnering with societies, supporting researchers to communicate discoveries. Our digital content, books and 1600 online journals build on a 200 year heritage of quality publishing.
Special Events/Meetings

**ISTSS Special Interest Group Meetings**
- **Thursday, November 10, 11:45 a.m. – 1:00 p.m.**
- **Saturday, November 12, 11:45 a.m. – 1:00 p.m.**

Special Interest Groups (SIG) provide members with a forum for communication and interaction about specific topic areas related to traumatic stress and provides a means of personal and professional involvement in the activities of the society. See page XX for a listing of specific SIG meetings for each day. All meeting participants are welcome to attend.

**ISTSS Awards**
- **Thursday, November 10, 8:30 a.m.**
- **Friday, November 11, 8:30 a.m.**
- **Saturday, November 12, 8:30 a.m.**
- **Dallas B/C, Conference Center First Floor**

Help us recognize the recipients of this year’s ISTSS awards. The awards will be given before the keynote addresses on Thursday, Friday and Saturday. See a list of 2016 award winners on page 60.

**Welcome Reception with SIG Endorsed Poster Presentations**
- **Thursday, November 10, 6:30 p.m. – 8:00 p.m.**
- **Dallas B/C, Conference Center First Floor**

Join us to welcome attendees to the ISTSS 32nd Annual Meeting. A selection of the top posters will be presented, organized by the Special Interest Groups. This will be a great opportunity to talk with SIG Chairs and poster presenters about the outstanding work happening in special interest areas. Enjoy a discussion with presenters while hors d’oeuvres are served alongside a cash bar.

See pages 147 – 150 for the list of posters being presented.

**ISTSS Student Lunch Meeting**
- **Friday, November 11, 11:45 a.m. – 1:30 p.m.**
- **Chapparell, Hotel 38th Floor**

All student members and nonmembers are invited to attend the student section meeting at the 32nd Annual ISTSS conference on Friday, November 11. This lunch meeting provides a great opportunity to meet and network with fellow students and future colleagues, as well as leaders in the field of traumatic stress studies from around the world. The recipients of the three Student Section awards will be announced.

This year’s meeting will feature “SPEED-MEETING” – a format based on the idea of speed-dating. Trauma experts will rotate between tables and provide students with an incredible opportunity to get to know the expert quickly, ask questions and glean wisdom and guidance from those who have successfully journeyed the same paths that students currently travel. It is our hope that students will learn and grow from this mini-mentorship exercise, feel more comfortable approaching trauma experts (and others) at the meeting and generally feel more a part of the ISTSS family.

Pre-registered students will receive lunch paid for by ISTSS. The Internship and Postdoctoral Networking Fair will be immediately following this lunch meeting. See you there!

**Business Meeting**
- **Friday, November 11, 6:45 p.m. – 7:45 p.m.**
- **Dallas D3, Conference Center First Floor**

All meeting participants are invited to attend the Annual Business Meeting. Learn about the Society, ask questions and make suggestions about ISTSS. In addition to meeting ISTSS leadership, the travel grant recipients will be announced.

---

**In Memoriam**

ISTSS wishes to acknowledge members who have passed away this year.
Ellen Frey-Wouters, PhD LLB DRS, former UN Representative
**Membership Information**

Join the International Society for Traumatic Stress Studies and become a member of the largest association dedicated to the discovery and dissemination of knowledge about policy, program and treatment initiatives that seek to reduce traumatic stressors and their immediate and long-term consequences. Take advantage of the reduced member registration rate along with all the other benefits of being an ISTSS member.

Join today using the secure online membership application at [www.istss.org](http://www.istss.org).

ISTSS membership includes:

- Peer-reviewed *Journal of Traumatic Stress*
- Clinician Directory listing
- Discounted ISTSS Annual Meeting rate
- Preferred pricing for continuing education courses, webinars and expert trainings
- StressPoints e-Newsletter
- Traumatic Stress e-NewsBrief
- Access to Member’s Only Section with searchable membership directory and diagnostic scales
- Discounts on selected publications from Taylor and Francis
- Ability to join Special Interest Groups and Committees

Your ISTSS membership plays an important role in supporting international trauma research and treatment. ISTSS membership is based on a calendar year — January 1 through December 31 — and dues are not prorated. Applicants joining after October 1 will be paid through the following membership year.

For 2017, regular membership in ISTSS is $225, which includes both print and electronic versions of the *Journal of Traumatic Stress (JTS)*, or $205, which includes the electronic version of *JTS* only. Early Career Professional membership is $130, which includes both print and electronic versions of *JTS*, or $110, which includes the electronic version of *JTS* only. Student membership is $95, which includes both print and electronic versions of *JTS*, or $75, which includes the electronic version of *JTS* only.

**Corresponding Membership**

The Corresponding Membership is FREE to individuals who reside in an African country.*

Corresponding Members will enjoy some of the great ISTSS membership benefits including:

- Access to Membership Directory on ISTSS website
- Broadcast email announcements
- StressPoints e-Newsletter
- Ability to join Committees and Special Interest Groups
- Opportunity to nominate (self or other) for ISTSS grants and awards
- Opportunity to receive ISTSS grants and awards
- Option to submit names of ISTSS Regular Members for consideration by the Nominations Committee to stand for election to the Board of Directors

* Corresponding Membership is valid January 1, 2017 - December 31, 2017. Eligible individuals must not have a prior connection to ISTSS or to the organizations that partners with ISTSS (ALFEST, ASTSS, CPA TSS, DeGPT, ESTSS, JSTSS, SAPsi or AsianSTSS).
Internship & Postdoctoral Program Networking Fair

Friday, November 11, 1:45 p.m. – 3:30 p.m.

Finding an internship or postdoctoral fellowship that features trauma specific training can be difficult. In an attempt to ease this burden, the Student Section of ISTSS offers this session to provide an opportunity for students to talk with representatives of various internship and/or postdoctoral fellowship programs who offer rotations or specializations in the clinical and/or research aspects of working with trauma. The training programs have the opportunity to recruit potential interns and postdoctoral fellows, while students have the opportunity to locate these programs, meet representatives, and ask any questions they have about the experiences offered and the application process.

This networking event is coordinated by Sacha McBain, Student Section Chair, and Stephanie Wells & Jon Magnus Haga, Student Section Vice Chairs.

*If there are sites you would like to see here in the future, please contact the Student Section leadership.

San Francisco VA Medical Center

Location: San Francisco, CA

Population: The Post-Traumatic Stress Disorder Clinical Team (PCT) at San Francisco VA Medical Center is one of the largest in the nation with regard to clinical activity. Our PCT specializes in the outpatient treatment of veterans from all eras who have PTSD related to combat, combat support, combat training, or military sexual trauma (MST) in the course of active duty military service. We also treat veterans whose primary mental health diagnosis is PTSD, regardless of trauma type, and a significant proportion of our patients have histories of complex trauma. We serve a predominantly male population ranging in age from 18 to 90+ years, although the number of women accessing services is increasing. Our population is quite diverse, with multiple ethnicities (significant numbers of Filipino American veterans), ages, sexual orientations and levels of socioeconomic status represented. Veterans are not required to have served in a war to be treated by the PCT.

Training level: Postdoctoral position (1 year), and pre-doctoral internship (1 year)

Emphasis: Postdoctoral position has 2 full-time tracks: PTSD in Returning Veterans (100% PCT) and PTSD & Substance Use Disorders (75% PCT, 25% SUPT). Internship follows a generalist model, with PCT and SUPT available as 8-12 hour rotations.

Training opportunities: All of our trainees gain proficiency in specialty evaluation, treatment planning, and treatment engagement of veterans with PTSD, many with co-occurring substance use disorders, mood disorders and/or chronic pain. Using a phase-based approach to trauma recovery (i.e., evaluation, stabilization, exposure/uncovering, integration and relapse prevention, maintenance), trainees learn to provide both time-limited and longterm individual and group psychotherapy.

Specialized training is available in motivational interviewing (MI), Acceptance and Commitment Therapy (ACT), Prolonged Exposure (PE), Cognitive Processing Therapy (CPT), Cognitive Behavioral Therapy for Insomnia (CBT-I), CBT for PTSD, and Seeking Safety, and there are opportunities to work in an integrated mental health primary care setting as well as through telemental health with veterans who live in remote areas. Group psychotherapy is central to our treatment approach.

Our trainees receive individual and group supervision by psychology staff, and also attend a weekly multidisciplinary seminar and clinical conference, which reviews the empirical literature pertaining to a number of different topics relevant to PTSD.

In addition to the training opportunities described above, our postdoctoral fellows train psychiatry residents and psychology trainees in the assessment of PTSD using the Clinician-Administered PTSD Scale (CAPS) and help oversee our weekly multidisciplinary clinics. Postdoctoral fellows also each supervise at least one junior psychology trainee (intern or extern), and organize and preside over our weekly multidisciplinary seminar and clinical conference.

Durham VA Medical Center Internship Program & Postdoc Fellowship Program

Location: Durham, NC

Population: Women veterans, Veterans returning from Afghanistan and Iraq, Veterans with serious mental illness

Emphasis: Trauma Recovery, Psychosocial Rehabilitation and Recovery

Training opportunities: Internships and Fellowships

Contact: R Keith Shaw, keith.shaw@va.gov
Internship & Postdoctoral Program Networking Fair

UCSD/VA Psychology Internship Training Program; VA San Diego Healthcare System/UCSD Clinical Psychology Postdoctoral Residency Program; VASDHS/UCSD Psychology Clinical Research Postdoctoral Residency Program

Location: San Diego, CA
Population: Veterans
Emphasis: Combat-related trauma; military sexual trauma
Training opportunities: Internships and Postdoctoral Fellowships
Contact: Carolyn Allard, PhD Carolyn.allard@va.gov; Brittany Davis, PhD Brittany.davis@va.gov

The National Center for PTSD Clinical Neurosciences Division and Yale University School of Medicine: Advanced Fellowship in Mental Illness Research and Treatment

Location: VA Connecticut Healthcare System (West Haven, CT)
Population: Veterans and their families
Training level: Postdoctoral (two-year program)
Emphasis: PTSD and/or substance use disorders
Training opportunities: The Advanced Fellowship in Mental Illness Research and Treatment is part of the Clinical Neurosciences division of the National Center for PTSD at VA Connecticut Health Care System and Yale University School of Medicine Department of Psychiatry. It offers a two-year term training designed to advance research and clinical training among psychologists and physicians who would like to embark on VA clinical or an academic career. Fellows will work closely with research mentors from the NCPTSD and Yale University and will conduct their clinical duties at the West Haven VA Medical Center. Fellows will carry an appointment at Yale University as postdoctoral associates and will have full access to all Yale University resources to advance their research and career. We offer one of the most advanced and stimulation training environment for trainees in the field of PTSD and substance use disorder. For several years, Yale Department of Psychiatry ranks as the number one program in the country in the treatment of addiction.
Contact: Ilan Harpaz-Rotem, PhD ilan.harpaz-rotem@yale.edu

Tulane Dept of Psychiatry and Behavioral Sciences Postdoc Research Fellowship

Location: New Orleans, LA
Population: All ages
Emphasis: The goal of the fellowship is to expand candidates research skills with the intent of pursuing an independent academic research career.
Training Opportunities: The Tulane Department of Psychiatry and Behavioral Sciences has assembled an outstanding group of clinical researchers with unique expertise in studying stress and trauma from the infant/preschool period through adulthood, neurobiology, genetics, forensics, psychotherapy development, and other innovations in intervention.
Contact: Michael Scheeringa, MD mscheer@tulane.edu

Momentous Institute

Location: Dallas, TX
Population: Diverse client population (SES, ethnicity, religion)
Emphasis: Family systems perspective within a community based setting
Training Opportunities: Broad range of clinical and training activities including an opportunity to learn more about postmodern approaches, psychological testing with children and adolescents, and providing supervision.
Contact: Garica Sanford, PhD, gsanford@momentousinstitute.org

Michael E. DeBakey Veterans Affairs Medical Center (MEDVAMC)

Location: Houston, TX
Training level: Predoctoral; One-year postdoctoral
Emphasis: Trauma, Primary Care Mental Health, Serious Mental Illness
Contact: Ellen Tang, PhD, ellen.tang@va.gov

Cherokee Health Systems, Clinical Postdoctoral Program

Location: Knoxville, TN
Population: Youth 18 and under and their families
Emphasis: Complex traumatic stress in children who have experienced chronic maltreatment; child welfare
Training opportunities: Clinical Child and Adolescent track, APPIC member postdoctoral program
Contact: Kristin Dean, PhD; Kristin.Dean@cherokeehealth.com
Internship & Postdoctoral Program Networking Fair

**Cherokee Health Systems, Psychology Internship Program**

**Location:** Knoxville and surrounding counties in East Tennessee  
**Population:** All ages  
**Emphasis:** Behavioral Health Consultation in primary care, working with underserved populations with chronic traumatic stress exposure  
**Training opportunities:** Psychology Internship Program, APA Accredited  
**Contact:** Suzanne Bailey, PsyD; Suzanne.Bailey@cherokeehealth.com

**Veterans Affairs Salt Lake City Health Care System**

**Location:** Salt Lake City, UT  
**Population:** Veterans  
**Training Level:** Predoctoral Internship and Postdoctoral Fellowship  
**Emphasis:** Predoctoral Internship: Generalist emphasis including medical psychology, inpatient psychiatric unit, mental health consult, neuropsychological assessment, and outpatient mental health.  
**Postdoctoral Fellowship:** 2 with a special emphasis on PTSD and polytrauma; 1 with a geropsychology emphasis; 2 with a health related emphasis to include Primary Care-Mental Health Integration (PCMI), Health Promotion and Disease Prevention (HPDP), Office of Patient Centered Care and Cultural Transformation, Mental Health Consult  
**Training opportunities:** Predoctoral Internship: This full time generalist internship is APA-accredited and committed to facilitating the transition from student to professional based on a developmental approach to clinical training and supervision. Interns train in a variety of major rotations including Inpatient Psychiatry, Inpatient Mental Health Consultation, Physical Medicine and Rehabilitation, PTSD Clinical Team, Geropsychology, Behavioral Health/Primary Care, OEF/OIF/OND Post-Deployment Readjustment, and Substance Abuse Treatment.  
**Postdoctoral Fellowship:** These are full time postdoctoral residencies are APA-accredited and is focused on training the next generation of VA psychologists. PTSD/polytrauma fellows split their time between the PTSD Clinic and the Polytrauma Clinic where they learn advanced assessment of PTSD and TBI. In addition, clinical interventions are emphasized to include evidence-based treatments for PTSD. Fellows in the health-related fellowships sharpen skills and acumen in operating in a variety of medical positions designed to train medical psychologists operating in PCMI, HPDP, Office of Patient Centered Care and Cultural Transformation, Mental Health Consult  
**Contact Persons:** Predoctoral Internship: Sarah Turley, PhD, Psychology Training Director; Sarah.Turley@va.gov  
Postdoctoral Residency, PTSD/Polytrauma: Tom Mullin, PhD, Postdoctoral Residency Training Co-Director: Thomas. Mullin2@va.gov  
Postdoctoral Residency, Health-related emphasis: Renn Sweeney, PhD, Postdoctoral Fellowship Co-Director: Caroline. Sweeney@va.gov

**STRONG STAR Consortium and the Consortium to Alleviate PTSD at the University of Texas Health Science Center at San Antonio**

**Location:** San Antonio, Texas and Fort Hood, Texas  
**Population:** Active Duty Service Members and Veterans  
**Emphasis:** Trauma Psychology  
**Training Opportunities:** The STRONG STAR (South Texas Research Organizing Network Guiding Studies on Trauma And Resilience) Consortium and the Consortium to Alleviate PTSD (CAP) are recruiting postdoctoral fellows to support funded studies treating PTSD and comorbid disorders in active duty military Service Members and Veterans. Fellows have the opportunity to work on studies examining evidence-based treatments for PTSD, insomnia, and nightmares, and receive expert training and on-going supervision from leaders in the field located across the country.  
**Contact:** McGearyC@uthscsa.edu

**VA Center for Integrated Healthcare/ Advanced Fellowship in Mental Illness Research and Treatment: Primary Care-Mental Health Integration (PC-MHI)**

**Locations:** Buffalo, NY and Syracuse, NY  
**Population:** Adult military veterans, military service members, eligible family members  
**Emphasis:** PC-MHI research on population-based mental health care for PTSD, depression, dementia, pain, substance use disorders, and other common behavioral health conditions.  
**Training Opportunities:** 75% Mentored clinical research; 25% of time is protected for clinical rotations and supervision. Attendance at weekly seminars is required. Other training opportunities exist.  
**Contact:** Laura O. Wray, PhD (Laura.Wray@va.gov); Paul King, PhD (Paul.King2@va.gov)
Internship & Postdoctoral Program Networking Fair

Center for Chronic Disease Outcomes Research (CDDOR), a VA HSR&D Center of Innovation at the Minneapolis VA Health Care System (MVAHCS)

Location: Minneapolis, MN, USA

Population: US Military Veterans

Degree(s) offered: We offer a Postdoctoral Fellowship for candidates with a PhD or MD/DO.

Emphasis: Candidates interested in post-traumatic stress disorder (PTSD), substance use disorders, healthcare disparities, implementation science, high value health care and policy, biostatistics, research methodology, cancer prevention and screening, chronic pain, and/or epidemiology may find CDDOR a particularly good fit, but other candidates are also encouraged to apply.

Training Opportunities: CDDOR is an interdisciplinary research center located at the Minneapolis VA Medical Center, and is affiliated with the University of Minnesota Medical School and its School of Public Health. CDDOR has several investigators with active PTSD focused research programs. We are looking for Fellowship candidates who have PhD’s in psychology, sociology, public health or related areas, and MD/DO’s who are internal medicine, psychiatry, or rehabilitation medicine physicians interested in a career in academic medicine, government and policy, or private health care systems. Fellows will participate in an intensive mentored research experience, with training in grant and manuscript writing, health services research, and advanced research methods. Fellows have the opportunity to participate in systematic reviews under the auspices of the Minneapolis VA Evidence-based Synthesis Program. Physician fellows also have the opportunity to complete an MPH in epidemiology or health services research or an MS in clinical research through the University of Minnesota School of Public Health.

Contact: Fellowship Co-Director, Diana Burgess at Diana.burgess@va.gov or the Associate Fellowship Director, Michele Spoont at Michele.Spoont@va.gov.

Brown Alpert Medical School Clinical Psychology Training Consortium

Location: VA Medical Center, Providence RI

Population: Veterans

Emphasis: The primary goals of Brown’s Clinical Psychology Training program are to produce psychologists who demonstrate an advanced competency level with regard to evidence-based practices within health service settings and who function effectively as scientist-practitioners.

Training opportunities: The following clinical focused/APA-Accredited postdoctoral fellowships are located at the Trauma and Readjustment Clinic at Providence VA Medical Center and are considered part of the Adult track: 1) Trauma Recovery Services (TRS) – the TRS fellowship focuses on providing clinical care for veterans diagnosed with PTSD and co-morbid disorders for military and non-military traumas. TRS also offers a 4-month rotation for interns in the Consortium’s pre-doctoral training program, 2) Post-Deployment and Readjustment Program (PDRP), 3) Interprofessional Care, with focus on PTSD & TBI (IPC) both the PDRP and the IPC fellowships involve providing direct care to veterans from recent deployments (Iraq & Afghanistan). *All fellowships include 1 day per week of protected time for research activities. Several opportunities exist for collaboration with VA investigators on site.

Contact: Jennifer Lambert, PhD, Jennifer.lambert@va.gov or go to https://www.brown.edu/academics/medical/about/departments/psychiatry-and-human-behavior/training/clinical/ for more detailed descriptions of the Brown Alpert Medical School Clinical Psychology Training Consortium, including specific training opportunities.

VA Boston Psychology Internship and Postdoctoral Fellowship Programs

Location: Boston Massachusetts (Three campuses, two in Boston and the third in Brockton MA, 24 miles south)

Population: Male and female veterans of all ages and all conflicts

Emphasis: VA Boston Healthcare offers multiple opportunities at the internship and postdoctoral levels. The full spectrum of traumatic exposure effects, including PTSD, are seen and treated across multiple clinics. The Postdoctoral Program has two PTSD fellowship positions that are shared between the PTSD Clinical Team and Women’s Stress Disorder Treatment Team.

Training opportunities: Internship and postdoctoral fellowships. Multiply traumatized populations, typically with 2-3 comorbid disorders. Training in individual and group therapy, including EBPs such as Cognitive Processing Therapy, Prolonged Exposure Therapy, and Dialectical Behavior Therapy. Please see our website for additional information: http://www.boston.va.gov/psychologytraining.asp

Contacts: Internship Director: Risa Weisberg, Ph.D. Risa.Weisberg@va.gov

Postdoctoral Fellowship Director: Amy Silberbogen, Ph.D. Amy.Silberbogen@va.gov
Internship & Postdoctoral Program Networking Fair

OAA Advanced Psychology Fellowship at the VISN 17 Center of Excellence
Location: Waco, Texas
Population: Returning Veterans (post-9/11 veterans)
Emphasis: PTSD, substance use disorders, reintegration issues, suicidality, and primary care interventions/implementation
Training Opportunities: Grantsmanship, publication, developing independent line of research, database management & analysis, specialty training in working with veteran populations, and dedicated weekly didactic seminar attended nationally by all OAA Advanced Fellows
Contact: Dr. Richard Seim (Richard.Seim@va.gov) for more information

National Crime Victims Research and Treatment Center at MUSC
Location: Charleston, SC
Population: Across the Lifespan (children, adolescents, adults)
Emphasis: basic and translational traumatic stress research; training in evidence-based trauma-focused treatments
Training Emphasis: NMH T32-funded Post-doctoral fellowship
Contact: Carla Kmett Danielson, Ph.D., danielso@musc.edu; Dean Kilpatrick, Ph.D. Kilapatdg@musc.edu

Graduate Programs

Adler University Clinical Psychology Doctoral Program
Location: Chicago, IL
Training Opportunities: Traumatic Stress Psychology emphasis available
Contact: Janna A Henning, J.D., Psy.D., F.T., B.C.E.T.S.

Silver School of Social Work at New York University
Location: Main Campus: 1 Washington Square N, New York, NY 10003
Population: About 1200 MSW students, which represents 2% of the greater NYU community.
Emphasis: The mission of the Silver School of Social Work at New York University is to educate professionals in a global perspective for social work practice with individuals, families, groups, and communities and to provide leadership in the development of knowledge relevant to social work practice in complex urban environments.
Training Opportunities: Lifelong Learning programs reach professional communities in and beyond the New York region. We provide advanced learning opportunities encompassing theoretical and evidence-based practice models for social work and related health professionals. Our programs are designed to meet needs related to pressing social issues impacting individuals, families, and communities, reflecting: social and economic justice, human rights and values, and anti-oppressive practice. All programs are developed and presented in a manner consistent with core social work values, including conduct and good moral character. All programs are reviewed by social work consultants to assure compliance with these standards.
Contact: NYU Silver School of Social Work, 212-998-5910 silver.admissions@nyu.edu

University of Colorado, Colorado Springs
Location: Colorado Springs, CO
Training Opportunities: PhD in Clinical Psychology with an emphasis in geropsychology or trauma. Terminal masters degrees offered in clinical psychology and psychological science.
Contact: Amanda Devane, andevane22@gmail.com

University of Houston (Main Campus)
Location: Houston, TX
Emphasis: PhD in Clinical Child Psychology, Clinical Neuropsychology, and Clinical Psychology (adult)
Training Opportunities: Graduate students match with faculty research mentors and are provided with a wide range of clinical training opportunities including in-house clinics and various sites across the Houston Metropolitan area.
Contact: http://www.uh.edu/class/psychology/clinical-psych/

University of Illinois at Urbana Champaign, Kinesiology and Community Health
Location: Champaign, IL
Training Opportunities: Master of Public Health (MPH), Master of Community Health, Doctor of Philosophy in Community Health (PhD). Trauma training in the Transforming Trauma and Mental Health Lab.
Contact: Robyn L. Gobin, Ph.D., robyngobin@gmail.com
Graduate Programs

**University of Missouri - Kansas City**  
**Location:** Kansas City, MO  
**Training Opportunities:** Clinical and Experimental Psychology PhD  
**Contact:** Joah Williams - Stress and Trauma Evaluation and Prevention Science Lab williamsjoah@umkc.edu (816) 235-1066

**University of Toledo Clinical Psychology PhD Program**  
**Location:** Toledo, Ohio  
**Population:** Our students can see Veterans at VA (including the PTSD Clinic), student counseling center patients, children’s hospital trauma-exposed youth, forensic inpatients, community mental health center outpatients.  
**Emphasis:** Scientist Practitioner Program, Generalist Program  
**Training Opportunities:** We are a generalist program. We also have a specialty in anxiety clinical and research training, with Jon Elhai, Jason Levine, Matt Tull, Kim Gratz, Sarah Francis and Peter Mezo specializing in anxiety disorders. For trauma-related training, we have trauma clinical placements mentioned above. For traumatic stress research, we have Jon Elhai, and Matthew Tull whose research includes PTSD expertise.  
**Contact:** Sarah Francis, Director of Clinical Training: http://psychology.utoledo.edu/showpage.asp?name=francis

**University of Tulsa Clinical Psychology PhD Program**  
**Location:** Tulsa, OK  
**Contact:** Chelsea Cogan, cogan.m.chelsea@gmail.com

**University of Utah Clinical Psychology PhD Program**  
**Location:** Salt Lake City, UT  
**Training Opportunities:** Clinical Psychology; Child & Families Track, Neuropsychology Track, and Behavioral Health tracks  
**Contact:** erika.roberge@psych.utah.edu and crosby.modrowski@utah.edu

**Charleston Consortium Psychology Internship**  
**Location:** Charleston, SC  
**Population:** Across the Lifespan (children, adolescents, adults)  
**Training Level:** Predoctoral Internship  
**Emphasis:** Traumatic stress treatment in civilians and veterans, community-based service delivery models  
**Training opportunities:** VA PCT Clinic, Outpatient specialty mental health clinic serving child and adult trauma victims, community- and school-based clinics for trauma-exposed youth and their families, primary-care based clinics specializing in providing services to trauma-exposed patients  
**Contact:** Daniel W. Smith, Ph.D., smithdw@musc.edu; Dean Kilpatrick, Ph.D. Kilpatdg@musc.edu
Continuing Education

Educational Need
The ISTSS Annual Meeting provides a forum for sharing research, clinical strategies, public policy concerns and theoretical formulations on trauma. It is an international assembly of professionals and students representing an array of disciplines including psychiatrists, psychologists, social workers, nurses, counselors, researchers, administrators, victim advocates, journalists, clergy and others with an interest in the study and treatment of traumatic stress. Speakers are strongly requested to avoid unnecessary jargon and to make their work and its implication to the traumatic stress field as accessible as possible to those who do not share their particular perspective and type of scientific approach. This is designed to facilitate increased understanding of what different types of researchers (e.g., basic scientists, clinical researchers) focusing on different types of traumatic stressors (e.g., child maltreatment, disasters, terrorism, war) using different research methods and perspectives (e.g., epidemiology, genetics, psychosocial, psychobiological) have found as well as what the implications of their work are for the traumatic stress field. Our aspirational goal is to establish a jargon-free zone in which experts maximize communication of their work, findings and implications in a way that facilitates understanding and cross-fertilization among researchers, clinicians and policy makers from other perspectives.

Conference Goals
After participating in this activity, participants will be able to:

- Discuss the use of innovative technologies to improve treatment for trauma-related disorders
- Identify new ways of disseminating knowledge related to trauma and PTSD
- Describe public health-related issues that help to better understand trauma-related disorders and facilitate treatment

Continuing Medical Education Accreditation
This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of Boston University School of Medicine and the International Society for Traumatic Stress Studies. Boston University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Credit Designation
Boston University School of Medicine designates this live activity for a maximum of 28.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Note: CME includes author-attended poster sessions.

CME Course Director
Danny Kaloupek, PhD, Boston University School of Medicine

DISCLAIMER: THESE MATERIALS AND ALL OTHER MATERIALS PROVIDED IN CONJUNCTION WITH CME ACTIVITIES ARE INTENDED SOLELY FOR PURPOSES OF SUPPLEMENTING CME PROGRAMS FOR QUALIFIED HEALTH CARE PROFESSIONALS. ANYONE USING THE MATERIALS ASSUMES FULL RESPONSIBILITY AND ALL RISK FOR THEIR APPROPRIATE USE. TRUSTEES OF BOSTON UNIVERSITY MAKE NO WARRANTIES OR REPRESENTATIONS WHATSOEVER REGARDING THE ACCURACY, COMPLETENESS, CURETTES, NO INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE MATERIALS. IN NO EVENT WILL TRUSTEES OF BOSTON UNIVERSITY BE LIABLE TO ANYONE FOR ANY DECISION MADE OR ACTION TAKEN IN RELIANCE ON THE MATERIALS. IN NO EVENT SHOULD THE INFORMATION IN THE MATERIALS BE USED AS A SUBSTITUTE FOR PROFESSIONAL CARE.

Continuing Education Credit (non-MD)
The ISTSS 32nd Annual Meeting is co-sponsored by the International Society for Traumatic Stress Studies and The Institute for Continuing Education.

Continuing education credit is offered on a session by session basis with full attendance required for attended sessions. Application forms and CE packets will be available on site. Types of CE credit are listed below.

The program offers a total of 26.5 credit hours. If you have questions regarding continuing education, the program, learning objectives, or grievance issues, contact The Institute by phone, +1-800-557-1950; or email, instconted@aol.com. Continuing education verification is mailed to participants within 8 weeks of completing the online submission.

Continuing education credit is offered in the following disciplines for attendees who are licensed/certified by United States’ boards. The Institute for Continuing Education holds no provider status with licensing/certification boards in Canada or other countries. It is the responsibility of attendees who make application for CE credit and who hold licensure/certification with boards in countries other than the United States to determine if credit issued by an approved provider of a licensure/certification Board in the United States will meet their board’s regulations.

Psychology: The Institute for Continuing Education is approved as a provider by the American Psychological Association (APA) to sponsor continuing education for psychologists. The Institute for Continuing Education maintains responsibility for this program and its content. All clinical sessions are eligible for CE credit for psychology credit.
Continuing Education

Counseling: Texas Board of Examiners of Professional Counselors, provider 2183. Note: NBCC credit is not offered for this conference.

Social Work: The Institute for Continuing Education is approved as a provider for continuing education by the Association of Social Work Boards (ASWB), through the Approved Continuing Education Program (ACE). Licensed social workers should contact their individual state jurisdiction to review current continuing education requirements for licensure renewal. The Institute for Continuing Education maintains responsibility for the program. ASWB Provider No. 1007.

- Illinois Dept. of Professional Regulation: Social Work License: 159-000606.
- Ohio Board of Counselor/Social Work: Provider No. RCS 030001.
- Florida Provider: Department of Health, Div. of Counseling, Social Work, Marriage/Family Therapy. BAP #255.

Marriage/Family Therapy: Texas Board Marriage/Family Therapy, Provider 177.

Nursing: The Institute for Continuing Education is accredited as a provider of continuing education in nursing by the California Board of Nursing, Provider No. CEP 12646. Nurses should contact their state board to determine if approval of this program through the California Board of Nursing is acceptable for continuing education in their state.

Note: CE credit is offered only through United States state licensing/certification boards. The Institute for Continuing Education holds no provider status with Canadian Licensing/Boards Certification.

Commercial Support: The institute received no commercial support for its participation in this event.

Continuing Education Registration and Requirements for The Institute for Continuing Education

You may not register for credits after November 16. Continuing education credit will be awarded on a session-by-session basis, with full attendance required for each session attended. To receive continuing education credit, attendees must pay the CE fee, sign in/sign out daily, complete the continuing education evaluation packet, and complete the online submission. Stop by the continuing education desk before attending any sessions to receive your packet and to sign in/sign out daily. It is the responsibility of conference attendees who hold licensure with boards to contact their individual licensing jurisdiction to review current continuing education requirements for licensure renewal. The following events/presentations are not available for continuing education credits: poster sessions*, awards ceremony/business meeting, internship and postdoctoral networking fair, student lunch, films, town hall meeting and special interest group meetings.

Note: *Author-attended poster sessions are available for CME only.
Program Committee Disclosures

Disclosure Policy
The University of Boston School of Medicine requires faculty and members of the planning committee to disclose whether or not they have any relevant commercial relationships or if they will be discussing unlabeled and/or investigational uses of any products, pharmaceuticals, or medical devices. This must be made known in advance to the audience in accordance with the ACCME Standards of Commercial Support guidelines.

Program Committee Disclosures
The following program committee members have indicated that they have financial relationships to disclose. They have agreed to disclose this to participants. All other committee members have completed financial disclosure forms and had no financial relationships to report.

Responding to Terror Attacks: What are the Right Ways to Act?

Moderator: Grete Dyb, MD, PhD,
Norwegian Center of Violence And Traumatic Stress Studies, Oslo, Norway

Panelists:
Bruce Shapiro,
Dart Center for Journalism & Trauma, USA
Chris Brewin, PhD,
University College London, United Kingdom
Tuva Svendsen, Medical Student,
The Arctic University of Tromsø, Tromsø, Norway
Philippe Pirard, MD, PhD,
National Institute of Public Health, Saint-Maurice Cedex, France
Melissa Brymer, PhD, PsyD,
National Center for Child Traumatic Stress at UCLA, Los Angeles, California USA
Robert Pynoos, MD, MPH,
National Center for Child Traumatic Stress, University of California at Los Angeles (UCLA) and UCLA School of Medicine, Los Angeles, California, USA

Primary Keyword: Prevent
Secondary Keyword: Acute-Journalism-Pub Health-Terror
Population Type: Lifespan
Presentation Level: I
Region: Global

Since the attacks on the U.S. in 2001 and the Madrid train bombing in 2004, there have been an increasing number of terrorist incidents around the world. Professionals in the field of traumatic stress have a particular responsibility to support health authorities in developing and implementing the best strategies in acute crisis and the aftermath of terror. How do we meet these challenges? Panelists with experiences from terror attacks across the world present suggestions for future responses.

Based on the worldwide work of the Dart Center for Journalism and Trauma, Bruce Shapiro will discuss the role of media in resilience, recovery and social policy following large-scale atrocity and explore ways for important knowledge from the trauma field to be communicated more effectively through news media.

Drawing on his experiences after the 2005 London bombings, Chris Brewin will emphasize the difficulty in identifying and following up survivors after incidents involving dispersed populations, such as transport incidents and attacks on public gatherings. He will discuss strategies for ensuring longer term mental health needs are met.

Tuva Svendsen is a medical student at the Arctic University of Norway. In July 2011 she survived the Utøya terror attack where 69 young people attending a summer camp were killed by a single perpetrator. Sharing her personal experiences in fighting her way back to a normal life gives a unique insight in the user perspective of trauma outreach programs.

Last year’s attack in Paris challenged the organization of medical and psychological outreach to victims and an epidemiologic study showed a high proportion of traumatized civilians with unmet needs. Philippe Pirard and co-authors Thierry Baubet, Stéphanie Vandentorren and Yvon Motreff therefore concluded that we need to enlarge the scope of the population to be contacted and ensure more structured early outreach through novel initiatives to reach exposed persons on web-based platforms.

Robert Pynoos and Melissa Brymer will describe how the National Child Traumatic Stress Network has collaborated with partners to respond to the needs of children and families after terrorist attacks worldwide. Future directions for response and recovery programs for children, adolescents, and families after terrorism will be discussed and recommendations for expanding services for underserved populations and for addressing different cultures.

The Epidemiology of Trauma and PTSD

Primary Keyword: Pub Health
Secondary Keyword: Chronic-Complex-Global-Prevent
Population Type: Adult
Presentation Level: A
Region: Global

Ronald C. Kessler, PhD
Harvard Medical School, Boston Massachusetts, USA

This presentation will provide an overview of results from the World Health Organization’s World Mental Health (WMH) Surveys on the epidemiology of trauma and PTSD. The WMH Surveys are a coordinated series of mental health needs assessment surveys carried out in representative national and regional household surveys to support mental health policy planning efforts in countries throughout the world. WMH surveys have been completed to date in 25 countries in the America, Europe, the Middle East, Africa, Asia, and the Pacific. Each WMH survey asks respondents about lifetime prevalence, age-of-onset, and course of a wide range of common mental and substance disorders. PTSD is one of these disorders. WMH respondents are also asked about lifetime history of exposure to a wide range of traumas. The presentation will focus on the distribution and clustering of trauma exposure; differential risk of PTSD onset and persistence across trauma types as a joint function of age of exposure and prior trauma history; and the role of temporally prior mental and substance disorders in predicting trauma exposure, risk of PTSD after trauma exposure, and course of PTSD after onset. Clinical and public health implications of results will be pointed out throughout the presentation.

Dr. Kessler’s research deals broadly with the social determinants of mental health and illness as studied from an epidemiological perspective. He is the author of over 600 publications and the recipient of many awards for his research, including the Senior Scientist and MERIT awards from the National Institute of Mental Health. He has been rated as the most widely cited researcher in the world in the field of psychiatry for each of the past fifteen years and is a member of both the Institute of Medicine and the National Academy of Sciences.

Dr. Kessler is the Principal Investigator of the US National Comorbidity Survey, the first nationally representative survey of the prevalence and correlates of mental disorders in the U.S., and a Co-Director of the World Health Organization’s World Mental Health Survey Initiative, a series of comparative community epidemiological surveys of the prevalence and correlates of mental disorders and treatment for these disorders in 26 countries around the world. In addition to his epidemiological studies, Kessler is involved in evaluating a number of innovative programs for the prevention and treatment of mental illness in high-risk segments of the population. Finally, Dr. Kessler is the Principal Investigator of the Harvard Medical School site for STARRS-LS, a research program funded by the Department of Defense to study risk and protective factors for suicide among Army personnel.

Dr. Kessler earned his PhD in sociology from New York University in 1975. He completed a postdoctoral fellowship in psychiatric epidemiology at the University of Wisconsin before joining the faculty at the University of Michigan in 1979. He was a Professor of Sociology and a Program Director at Michigan’s Institute for Social Research at the time he took his current position at Harvard Medical School in 1994.

Epigenetic Regulation of Stress Genes and Their Role in Stress-Related Psychiatric Disorders: FKBP5 as an Example

Elisabeth Binder, MD, PhD
Emory University, Atlanta, Georgia, USA

Stress responses and related outcomes vary markedly across individuals. Elucidating the molecular underpinnings of this variability is of great relevance for developing individualized prevention strategies and treatments for stress-related disorders. An important modulator of stress responses is FKBP5. FKBP5 acts as a co-chaperone that modulates not only glucocorticoid receptor activity in response to stressors but also a multitude of other cellular processes in both the brain and periphery. Notably, the FKBP5 gene is regulated via complex interactions among environmental stressors, FKBP5 genetic variants, and epigenetic modifications of glucocorticoid-responsive genomic sites. These interactions can result in FKBP5 disinhibition that has been shown to contribute to a number of aberrant phenotypes in both rodents and humans and possibly contributes to both behavioural and medical symptoms associated with stress exposure. Consequently, FKBP5 blockade may hold promise as a treatment intervention for stress-related disorders, and recently developed selective FKBP5 blockers show encouraging results. Although risk for stress-related disorders is conferred by multiple environmental and genetic factors, the findings related to FKBP5 illustrate how a deeper understanding of the molecular and systemic mechanisms underlying specific gene-environment interactions may provide insights into the pathogenesis of stress-related disorders.

Dr. Binder has studied Medicine at the University of Vienna, Austria and Neuroscience at Emory University in Atlanta, GA, USA. Following a postdoctoral training at the Max-Planck Institute of Psychiatry in Munich, Germany, she returned to Emory University as an Assistant Professor in the Departments of Psychiatry and Behavioral Sciences and Human Genetics. In 2007, she was appointed as research group leader at the Max-Planck Institute of Psychiatry within the Minerva Program of the Max-Planck Society. Since August 2013, Elisabeth Binder is the director of the Department of Translational Research in Psychiatry at the Max-Planck Institute of Psychiatry. She also holds an appointment as an Associate Professor in the Dept. of Psychiatry and Behavioral Sciences at Emory University School of Medicine. Her main research interests are the identification of molecular moderators of the response to environmental factors, with a focus on early trauma and gene x environment interactions. She studies how such factors influence trajectories to psychiatric disease or well-being to ultimately use this information for novel prevention and treatment strategies.
Following exposure to violence, disaster, or other adversity, rates of mental health problems and non-pathological distress increase. At the same time, most people in countries affected by adversity do not have access to appropriate mental health support. Despite insufficient numbers of (a) mental health specialists (b) non-specialists working for mental health, and (c) public mental health practitioners, this area of public health has much momentum.

This presentation will seek to cover the World Health Organization (WHO)'s approach to addressing vast mental health needs in emergency-affected countries. It will emphasize 4 aspects: (a) mental health system building (as described in WHO (2013) Building back Better: Sustainable Mental Health Care after Emergencies), (b) clinical interventions integrated into general health services (as described in the WHO & UNHCR (2015) mhGAP Humanitarian Intervention Guide: Clinical Management of Mental, Neurological and Substance Use Disorders in Humanitarian Emergencies), (c) social interventions that can reach large numbers of people with the aim to create a supportive recovery environment (as described in the Inter-Agency Standing Committee (IASC, 2007) Guidelines on Mental Health and Psychosocial Support in Emergency Settings), and (d) scalable (low resource-intensity) psychological interventions, as currently developed and tested by WHO and many partners.

The presentation includes both country and normative examples with lessons learned and relearned (such as “training without supervision is entertainment” and “in public health, less is often more”).

Dr. van Ommeren is Public Mental Health Adviser in the Department of Mental Health and Substance Abuse at the World Health Organization (WHO). He functions in WHO as the global focal point for mental health and psychosocial support in emergencies. This position includes advising and supporting all relevant agencies in providing the best possible social and mental health supports to people affected by war and other disasters. He has played a key role in initiating and drafting the most popular documents currently used in emergencies worldwide.

He was initiator and co-chair of the Inter-Agency Standing Committee (IASC) Task Force for Mental Health and Psychosocial Support in Emergency Settings, representing guidelines for emergencies written and endorsed at head-of-agency level by 27 agencies representing key UN agencies, the Red Cross/Red Crescent movement and leading non-governmental organizations.

He also led the drafting of the mental health standard in the Sphere Handbook (2004, 2011), which is worldwide the most widely used guide in emergencies across disciplines.

He has a particular interest in action related to “building back better”, that is converting short-term emergency-related interest in mental health into momentum for long-term improvement, as described in Building Back Better: Sustainable Mental Health Care after Emergencies (WHO, 2013).

He is also a member of the WHO mhGAP team where he is the focal point for psychological interventions as well as for depression, trauma and loss. His recent work focuses on the development and testing of simplified “low-intensity” psychological interventions to be used in communities affected by adversity.

He was the recipient of the 2002 ISTSS Chaim Danieli Young Professional Award for excellence in service or research in the field of traumatic stress. He regularly co-authors articles in leading public health journals (h-index is 36 in Google scholar).

**Competent Parenting: The Key to Preventing Social, Emotional and Behavioural Problems in Children of Trauma Related Adversity**

**Primary Keyword:** Practice  
**Secondary Keyword:** CPA-Fam/Int  
**Population Type:** Lifespan  
**Presentation Level:** M  
**Region:** Global

**Matthew Sanders, PhD**  
*University of Queensland, Brisbane, Queensland, Australia*

There is nothing more important in promoting the healthy development and wellbeing of children than the quality of parenting a child receives regardless of their life circumstances. Competent parenting is the key to preventing child social, emotional and behavioural problems because it provides a common pathway to confident, resilient and skilled children. From single-subject research in the early 1980s that investigated individually administered parenting programs to a widely disseminated public health approach that has impacted millions of families worldwide, Triple P has evolved an array of evidence-based interventions designed to overcome a diverse range of clinical problems affecting families every day. This need for flexibility has inspired the more recent innovation work investigating how the Triple P system can be applied to trauma related adversity. The difficulties faced and lessons learned through implementing a large-scale evidence-based parenting program across diverse communities will be discussed.

Professor Sanders is a Professor of Clinical Psychology and Director of the Parenting and Family Support Centre at the University of Queensland. He is also a consulting Professor at The University of Manchester, a visiting Professor at the University of South Carolina, and holds adjunct Professorships at Glasgow Caledonian University and The University of Auckland. As the founder of the Triple P-Positive Parenting Program, Professor Sanders is considered a world leader in the development, implementation, evaluation and dissemination of population-based approaches to parenting and family interventions. Professor Sanders is recognised as the global leader in the field of evidence-based parenting intervention and one of The University of Queensland’s Innovation champions. Professor Sanders’ Triple P system is currently in use across 25 countries, has over 68,000 practitioners trained to deliver it, and some 7 million families are estimated to have benefited from Triple P.

Professor Sanders’ work has been widely recognised by his peers as reflected a number of prestigious awards. In 2007, he received the Australian Psychological Society’s President’s Award for Distinguished Contribution to Psychology and in 2004 he received an International Collaborative Prevention Science award from the Society for Prevention Research in the US. In 2007 he received a Trailblazers Award from the Parenting and Families Special Interest Group in the Association for Behavioural and Cognitive Therapy and in 2008 was became a fellow of the New Zealand Psychological Society. Professor Sanders has also won a Distinguished Career Award from the Australian Association for Cognitive Behaviour therapy, was named Honorary President of the Canadian Psychological Association (2009), and Queenslander of the Year (2007).

**Compassion Focused Therapy: Is Compassion an Antidote to Shame and an Effective Treatment of Complex PTSD?**

**Primary Keyword:** Practice  
**Secondary Keyword:** Complex  
**Population Type:** Adult  
**Presentation Level:** M  
**Region:** Global

**Deborah L. Lee, PhD**  
*Berkshire Traumatic Stress Service, Berkshire, United Kingdom*

Those who have been repeatedly traumatised at the hands of others have many challenges to face as they discover a life without trauma and learn how to live in a mind that can flourish. Predominant issues of self-blame, self-loathing, lack of trust, interpersonal difficulties and struggles to regulate threat based emotions are prevalent in therapy.

Effective treatments of interpersonal trauma suggest phased-based approaches for Complex PTSD (Cloitre, 2010), yet the precise ingredients of the phases are still up for debate. Key struggles for clients are to discover that their lives are not of their making or their fault and that can take responsibility to act and feel differently.

Can compassion help you discover what you don’t know and help you feel what you have never felt?

This masterclass explores the use of compassion focused therapy offers clients the psychoeducation to discover their lives are not their fault and the brain training exercises to help them develop the capacity to feel emotionally safe with and connected to others. Perhaps this could offer a vital precursor to change the emotional context of minds and allow clients to think differently about their traumatic experiences in a way that allows them to hold themselves in mind with kindness, understanding, wisdom and courage.

Compassion focused therapy was developed by Gilbert and his colleagues (Gilbert, 2005, 2009). The explicit goal is to develop, access and stimulate positive effect associated with self-soothing in the mind and body of the patient in order to promote an inner sense of psychological safeness (Gilbert, 2005)

The therapeutic work presented in this talk can be considered as part of phase 2, as compassionate resilience enhances affect regulation, interpersonal functioning, problem-solving and the ability to hold trauma memories with a caring compassionate mind. Compassionate resilience enhances feelings of self-soothing and safeness in these memories and reduces self-critical maintenance cycles by developing compassionate self-talk. It helps the development of the capacity to self-soothe to those who feel deeply ashamed about who they are and what they have been through.

**Dr. Lee** is a Consultant Clinical Psychologist, Head of Berkshire Traumatic Stress Service and South Central Veterans Service. She is also an honorary Senior Lecturer at University College London. She is a board member of the Compassionate Mind Foundation and author of the Compassionate-Mind Guide to Recovering from Trauma and PTSD: Using Compassion-Focused Therapy to Overcome Flashbacks, Shame, Guilt, and Fear (2013). New Harbinger, New York.

Dr Lee has worked in the field of trauma for 24 years and specialises in the treatment of PTSD and complex Trauma. Her particular area of clinical and research interest is in shame based PTSD and self-criticism. She has developed the use of compassion - based treatments including the use of compassionate imagery in shame based flashbacks to enhance clinical practice in this field. She has pioneered the use of developing compassionate resilience as part of a phased based treatment approach to complex PTSD. She has widely contributed to the dissemination of her clinical knowledge through writing and delivering over 100 clinical workshops and talks in North America and Europe.

Treating PTSD through the Internet – Efficacy, Treatment Principles and Challenges of the Virtual Therapeutic Relationship with the PTSD Patients

Primary Keyword: Clin Res
Secondary Keyword: Clin Res-Global-Media-Tech
Population Type: Lifespan
Presentation Level: M
Region: Global

Christine Knaevelsrud, PhD
Free University of Berlin, Berlin, Germany

Meta-analyses show consistent evidence and large effect sizes of for trauma-focused therapies. However, these are not widely applied in clinical practice. Moreover, only a minority of traumatized individuals who experience symptoms of PTSD are in touch with the health care system and only around one in five patients seeks psychological treatment due to fear of stigmatization, embarrassment, judgment or exclusion or negative beliefs about mental health care services. Above all, there is a pronounced lack of psychotherapy supply for PTSD, with long waiting times and inadequate psychotherapy infrastructure. This disparity of need for psychotherapy and supply is crucial, and alternative means of providing access to treatment are needed. Web-based psychotherapeutic interventions may help to improve access to mental health care for individuals with PTSD through being independent of seeing a therapist face-to-face and through being easily accessible, low-threshold and visually anonymous. Meta-analytical evidence shows that cognitive and behavioral intervention techniques for PTSD can be successfully applied through the Internet. The presentation will describe how current evidence-based treatment approaches can be transferred to the Internet (i.e. through writing assignments, video/ audio vignettes or interactive training) and describe specific moderators that are associated with better outcomes (i.e. duration of treatment, guided versus unguided interventions). The virtual therapeutic relationship with PTSD patients who regularly show difficulties with interpersonal trust and relationships will be specifically discussed.

Dr. Knaevelsrud is a full professor for Clinical Psychological Intervention at the Freie University Berlin and trained psychotherapist. She completed her studies in psychology at the University of Amsterdam, Netherlands and New York University, USA and obtained her PhD at the University of Zurich, Switzerland. During the last decade, she also served as the scientific director of the Treatment Center for Torture Victims Berlin. She is Vice President of the German Society for Traumatic Stress Studies. Dr. Knaevelsrud’s clinical and research interests are focused on web-based interventions. She conducted several treatment trials on internet-based cognitive-behavioral treatments for PTSD, Complicated Grief and Depression. Her current work focuses on improving access to evidence-based intervention in regions of war and violent conflicts. Further research interests include psychological risk factors for PTSD such as attention biases, transgenerational transmission and revictimization.

Planning a Large Scale Population Survey: Choices and Consequences

We have conducted population based assessments of trauma and trauma-related disorders, both in the general public and in sub-populations at greater risk to trauma, for decades. Some populations at greater risk of traumatic events, including active duty military, veterans, first responders, some adjudicated crime victims, among others, can be identified and sampled from databases. However, traumatic events including crime, war, other forms of violence, natural disasters, fires, flooding, vehicular crashes and other accidents, occur throughout the general population. Hence, many studies of trauma begin with general population sampling frames from which cross-sectional or longitudinal, retrospective or prospective assessments of trauma, trauma-related disorders, their correlates and the mediators can be conducted. The ISTSS meeting is an ideal platform to reflect on the promise of innovative technology and methodology in improving our measurement of trauma and trauma-related disorders. Mobile data collection may allow us to develop real time measures of conditions and reactions to natural (and man-made) disasters. Web-based panels may permit us to measure changes in symptom pattern, health outcomes and recovery from trauma on a much more detailed basis.

John M. Boyle, PhD
ICF International, Rockville, Maryland, USA

Dr. Boyle has served as the project director on hundreds of projects over the course of his 35-year career, having directed public health surveys for Federal, State, and local government; universities; nonprofits; and commercial organizations. As the leader of ICF’s Survey Research Practice, he provides oversight and leadership to ICF’s public health surveys for the Centers for Disease Control and Prevention (CDC), other Federal and State clients, and the commercial sector. Before coming to ICF, Dr. Boyle spent 25 years directing the government, health, and social research division of Abt SRBI (formerly Schulman, Ronca & Bucuvalas, Inc.). He previously directed the government research division of Louis Harris and Associates for 7 years.

Dr. Boyle directed some of the earliest telephone surveys of general populations to estimate the prevalence of intimate partner violence, including spousal violence, rape, other forms of sexual assault and stalking. In the areas of family violence or domestic violence, he designed and directed the Second National Family Violence Survey for Drs. Murray Straus and Richard Gelles in December 1985. This was the first national survey of domestic violence to be conducted by telephone. A total of 6,002 telephone interviews were conducted with a national sample of adults concerning spousal and parent-child violence.

He has also directed some of the most important surveys of rape and sexual assault. He directed the survey of Sexual Assault in South Carolina for Dr. Dean Kilpatrick and the Medical University of South Carolina. This survey was conducted by telephone among a county-wide cross-section of 2,000 adult women in 1983. This methodology was subsequently applied in the National Survey of Women – Risk Factors for Substance Abuse: A Longitudinal Study for the Medical University of South Carolina under grant to the Department of Health and Human Services. A national sample of 4,000 women were interviewed in 1989 and re-interviewed in 1990 and 1991 about their experience with sexual assault, other forms of violence and traumatic events, substance use and/or abuse; and indicators of psychological distress including past and current PTSD. The findings of this study were widely publicized under the title Rape in America.
The Ultimate Skinner Box: Virtual Reality as a Tool for the Prevention, Assessment and Treatment of PTSD

Virtual reality (VR) has undergone a transition in the past 20 years that has taken it from the realm of expensive toy and into that of functional technology. Revolutionary advances in the underlying VR enabling technologies have now driven a renewed public enchantment with the medium as a new source of entertainment. However, VR is not limited to the domain of fun and games. VR technology provides an ideal method for creating controlled stimulus environments. Stimuli can be systematically delivered within realistic simulations of real world contexts that allow for exquisite timing and control of stimulus load/complexity, all of which can be manipulated in a dynamic fashion contingent on the responses of the client/research participant. Within such VR simulations, human performance can be digitally captured in real time to support a rich and precise analysis of relevant responses. In this regard, VR can be seen as the “ultimate Skinner Box” for conducting human research and for providing clinical care. Thus, in spite of the early limitations of the technology, a large scientific literature has emerged over the last 2 decades demonstrating the added value that is accrued with the use of VR to address a wide range of clinical health conditions. There is also evidence that many clinicians have come to recognize VR’s potential for creating tools that can amplify and extend their capacity to deliver evidence-based care. This can be seen in the results from a survey where expert clinicians were queried as to what interventions they predicted would increase in the next decade (Norcross, 2012); VR ranked 4th out of 45 options with other computer-supported methods occupying 4 out of the top 5 rankings. This presentation will describe VR efforts that are now generating research that is having an impact on the prevention, assessment and treatment of PTSD. After a brief introduction to the technology, I will cover the use of VR to deliver prolonged exposure for the treatment of PTSD and describe studies that aim to assess PTSD by recording the physiological reactivity of users interacting with VR stimuli. Applications that leverage VR to immerse service members within interactive, story-based simulations for teaching emotional coping and resilience prior to a military deployment will then be presented. The talk will conclude with a discussion of the use of AI Virtual Humans that serve the role of digital standardized patients for clinical training and as health care support coaches.

Dr. Rizzo received his Ph.D. in Clinical Psychology from SUNY-Binghamton. He is the Director for Medical Virtual Reality at the University of Southern California Institute for Creative Technologies and has Research Professor appointments with the USC Dept. of Psychiatry and Behavioral Sciences, and at the USC Davis School of Gerontology. Dr. Rizzo conducts research on the design, development and evaluation of Virtual Reality (VR) systems targeting the areas of clinical assessment, treatment and rehabilitation. This work spans the domains of psychological, cognitive and motor functioning in both healthy and clinical populations. In the psychological domain, the Virtual Iraq/Afghanistan project has focused on the creation of a VR prolonged exposure therapy application for combat and military sexual trauma-related PTSD with OIF/OEF service members and veterans. This system has now being retooled for a stress resilience/coping strategy-training application for use at prior to a combat deployment. His cognitive work has addressed the use of VR applications to test and train attention, memory, visuospatial abilities and executive function. In the motor domain, he has developed VR Game systems to address rehabilitation post stroke and Traumatic Brain Injury. He is also involved with ICT collaborators in the creation of artificially intelligent virtual human patients that clinicians can use to practice skills required for challenging clinical interviews and diagnostic assessments (sexual assault, resistant patients, etc.) and for creating online virtual human healthcare guides for breaking down barriers to care in psychological health and TBI. In spite of the diversity of these areas of research and development, the common thread that drives all of these applications involves the study of how VR simulation technology can be usefully applied to serve the needs of clinical users in a manner that goes beyond what is available with traditional 20th Century tools and methods.

Spotify Mental-health for Depression and Anxiety: Personalise, Engage & Connect

Primary Keyword: Clin Res
Secondary Keyword: Anx-Pub Health-Res Meth-Tech
Population Type: Lifespan
Presentation Level: M
Region: Industrialized

Heleen Riper, PhD
Vrije Universiteit, Amsterdam, The Netherlands

The digitalisation of the treatment of mental disorders such as depression and anxiety has gained momentum over the last two decades. Riper and colleagues have shown with ample studies that online prevention and treatment, for example by means of cognitive behavioural therapy, can be (cost) effective. However, ample challenges remain, such as to assess for whom digital treatments work or not, how they work and whether they can work even better than face-to-face therapies. eMental-health, including mobile health, has led to numerous innovations but its implementation in routine care appears still limited. One could argue that this is due to a question of time as it takes a long time to implement innovations in routine care. Under the umbrella of an ‘agile science’ approach Riper will explore how a different line of reasoning, namely that we need not only to innovate our treatments but our scientific methods for the development (‘co-creation’), evaluation (‘beyond RCT’s only’) and implementation (‘evidence-based implementation strategies’) of digital interventions as well. The application of mobile devices that support virtual and augmented realities, sensors, and gaming will become an integral component of studying and providing these interventions. These enable a more personalized approach of depression and anxiety by patients and therapists alike. Riper will discuss these innovations by beyond state of the art anxiety research, specifically related to stress and stress related disorders including routine care examples as well.

Over the past 15 years, her research focus has been on the development, evaluation and implementation of innovative eMental-Health interventions for common mental disorders from prevention to treatment. The scope of her current research activities includes the use of mobile health, and combined online and face to face (‘blended’) treatments for depression and anxiety. New methodological challenges include the development and evaluation of mobile ecological momentary assessments and interventions (EMA/EMI), serious gaming and predictive modeling. She has opted for an international perspective and collaboration throughout her academic career and acted as Principal Investigator of over 15 large scale European Union projects and reviewer for Research Funding Organizations globally. She has have published over 120 international peer-reviewed papers and book chapters within the eMental-health domain. In 2013 Heleen Riper (co) founded the Journal of Internet Interventions (published by Elsevier) and in 2014 she became President of the International Society for Research on Internet Interventions (ISRII) for which she now acts as Past-President.

Symposium

How Novel Technology may Support a Public Health Approach to Trauma and Its Consequences around the World

Primary Keyword: Global
Secondary Keyword: Global-Pub Health-Tech
Population Type: Lifespan
Presentation Level: M
Region: Global

Chair: Miranda Olff
Josef I. Ruzek, PhD; Brian J. Hall, PhD; Samuel M.Y. Ho, PhD, PsyD; Nancy Kassam-Adams, PhD

1Academic Medical Center, Amsterdam, The Netherlands
2VA Palo Alto Health Care System, National Center for PTSD/Stanford University, Menlo Park, California, USA
3University of Macau, Taipa, Macau (SAR), China
4City University of Hong Kong, Hong Kong, China
5University of Pennsylvania School of Medicine, Philadelphia, Pennsylvania, USA

Around the world, millions of adults, as well as children each year, experience potentially traumatic events. Especially when events happen on a large scale such as in the case of disasters, migration or highly prevalent events, clinical resources may be limited. The growth of phone and mobile access does enable opportunities for electronic mental health (eMental Health) interventions. We can also more easily address specific contexts and for diverse cultures. However, with all the potential there is for a big step forward towards efficient mental health approaches the biggest challenge may be to provide evidence-based resources that are culturally-relevant, and truly accessible. In this symposium, we discuss how novel technologies may support our public health goals.

Dr. Ruzek will present on the mobile technology applications developed at the National Center for PTSD and explore issues related to expanding their reach to trauma survivors in less-resourced communities with limited access to mental health services.

Dr. Hall will discuss how eMental Health interventions may help populations in need, such as the millions of migrant workers in China who typically face substantial barriers to obtain classical mental health services.

Dr. Ho will share with us how to promote post-disaster management in China e.g. by hotlines, mobile apps and e-mental health tools. He will focus on current e-mental health approaches (‘hope stories’) aimed at increasing hope in children – an important predictor of resilience.

Dr. Kassam-Adams will share how to reach large numbers of children and families by eHealth tools e.g. via gamified and interactive features. She will update us with recent research, lessons learned regarding practical development processes and dissemination models.

Symposium

Gun Violence and Its Impact on Society

Primary Keyword: Community-based Programs
Secondary Keyword: Comm/Vio
Population Type: Lifespan
Presentation Level: M
Region: Global
Chair: Justin Kenardy, PhD; Carolyn Greene, PhD
Discussant: James Shultz, PhD
Siri Thoresen, PhD; Bradley C. Stolbach, PhD; Heather Littleton, PhD

1University of Queensland, Herston, Queensland, Australia
2VA Office of Mental Health Services, San Francisco, California, USA
3University of Miami Miller School of Medicine, Miami, Florida, USA
4Norwegian Center for Violence and Traumatic Stress Studies, Oslo, Norway
5University of Chicago, Chicago, Illinois, USA
6East Carolina University, Greenville, North Carolina, USA

Gun violence has become an all too common experience. This is at a level where the frequency of mass gun violence has meant that it becomes “yesterday’s news” relatively swiftly and also chronic urban gun violence that is so routine that it does not even make the news. This special symposium aims to highlight the often under-recognized impacts of gun violence on the community. Speakers will report on aspects of gun violence impact. Siri Thoresen will explore community responses to the 2011 attack in Norway. Heather Littleton will discuss Lessons learned from a study of victims of the Virginia Tech campus shooting. Bradley Stolbach will address the effects of gun violence in Chicago’s youth. Finally James Schultz will provide a summary and implications of the symposium.

The Refugee Situation in the World:
a Humanitarian Emergency

Primary Keyword: Global
Secondary Keyword: Health-Refugee-Social-Civil/War
Population Type: N/A
Presentation Level: I
Region: Global
Moderator: Tanja Michael, PhD

Adib Essali, MD; Kerry Young, PhD; Jutta Lindert, PhD, MPH, MA; Belinda Liddell, PhD; Mark van Ommeren, PhD

1Saarland University, Saarbruecken, Germany
2Waikato District Health Board, Thames, Auckland, New Zealand
3Central and North West London NHS Foundation Trust, London, United Kingdom
4University of Emden, Emden, Germany
5University of New South Wales, Sydney, New South Wales, Australia
6World Health Organization, Geneva, Switzerland

Although providing refuge to people fleeing persecution, war or hunger is considered the hallmark of civilization, many high-income countries shy away from their humanitarian responsibilities. Refugees – already exposed to danger in their home country – face often perilous situations during their flight and meet difficult living conditions in their country of arrival. In the panel, five distinguished scholar-clinicians will exchange views on which mental health and psychosocial support measures are most needed and how to build structures to provide them: Dr. Adib Essali (Waikato District Health Board, NZ) has profound knowledge on the psychological consequences of the violence in Syria and the Middle East; Dr. Kerry Young (Forced Migration Trauma Service, UK) is an expert on treatment approaches for refugees; Dr. Jutta Lindert (Professor of Public Health, DE) is a former head of a refugee camp and expert on the impact of violence on mental health; Dr. Belinda Liddell (Refugee Trauma and Recovery Program, UNSW Australia) has worked with a variety of refugee and post-conflict populations; Dr. Mark van Ommeren (Public Mental Health Adviser at WHO) functions as global focal point for mental health and psychosocial support in emergencies as well as for interventions for trauma and loss. Dr. Tanja Michael will be moderating this session.

Trauma-informed Policing with Communities of Color—Learning from the Dallas Experience

Primary Keyword: Social Issues – Public Policy
Secondary Keyword: Comm/Vio, Cul/Div, Journalism, Pub Health
Population Type: Lifespan
Presentation Level: I
Region: Industrialized

Moderator: Amy Williams, PhD
Michael Foreman, MD; Tara Galovski, PhD; Sargeant Demetrick Pennie, MA; Brenda Richardson-Rowe, PhD, LPC-S; Ann Marie Warren, PhD, ABBP-Rp

On July 17, 2016, a 25 year old African American man ambushed and fired upon a group of police officers in Dallas, Texas, killing 5 officers and injuring 9 others. The shooting happened at the end of a Black Lives Matter-organized protest involving police killings. This panel includes varying perspectives on the impact of that event in the immediate aftermath and how we can contextualize it within the current issues facing law enforcement. Panelists will be invited to share their opinions on how we can respond most effectively as a community and how we can help reduce violence in the future.

Symposium

Moving from Research to Practice to Meet the Needs of Trauma-exposed Populations across the Globe

Primary Keyword: Train/Ed/Dis
Secondary Keyword: Clin Res-Practice-Comm/Int-Cul Div
Population Type: Prof
Presentation Level: I
Region: Global

Chair: Tine K. Jensen, PhD
Discussants: Paula P. Schnurr, PhD; Benjamin E. Saunders, PhD; Joan Cook, PhD; Ane-Marthe Solheim Skar, PhD; Debra Kaysen, PhD, ABPP

Many effective practices have been developed, tested, and are now being disseminated and implemented in services around the world. Meaningful dissemination and implementation require attention to organizational, leadership, and therapist factors. In this symposium, the presenters will present data and experiences from four large-scale implementation efforts to integrate the adoption of evidence-based mental health interventions in usual care contexts. The presentations cover different settings such as community service agencies and mental health clinics, both child and adult target populations, different interventions that were implemented, including Cognitive Processing Therapy, Prolonged Exposure and Trauma-Focused CBT. The implementation projects were conducted in high and low resource countries. Together the studies show that implementing evidence-based practice in usual care organizations is possible, but requires activities targeting multiple levels of the service system so that critical barriers are addressed.

The PTSD Definition in DSM-5 and ICD-11: Evolution or Devolution?

Primary Keyword: Assess Dx
Secondary Keyword: Assess Dx
Population Type: Adult
Presentation Level: I
Region: Global

Moderator: Meaghan O’Donnell, PhD
Dean Kilpatrick, PhD; Andreas Maercker, PhD, MD; Charles Hoge, MD

Phoenix Australia: Centre for Posttraumatic Mental Health: The University of Melbourne, Carlton, Victoria, Australia
Medical University of South Carolina, Charleston, South Carolina, USA
University of Zurich, Zurich, Switzerland
Walter Reed Army Institute of Research/US Army, Bethesda, Maryland, USA

The diagnostic definition of PTSD has important implications for clinical practice, research, service eligibility, and compensation. Few would argue that the DSM-IV and ICD-10 diagnostic formulations for PTSD were perfect, and many aspects of both diagnoses received criticism. However, the DSM-IV and ICD-10 PTSD diagnoses guided clinical and research practice for years. In an attempt to address apparent problems with these definitions, the DSM-IV diagnostic criteria for PTSD were revised in 2013 with the publication of DSM-5, and more substantial definitional changes have been proposed for ICD-11. These revisions in the PTSD diagnosis have generated considerable attention, as well as high profile debates in the academic literature. This panel discussion will examine the DSM-5 and proposed ICD-11 changes to the PTSD diagnosis from several perspectives. Particular emphasis will be placed on whether the DSM-5 and proposed ICD-11 revisions are well-justified clinically and scientifically, and whether they represent evolutionary improvements as some experts maintain, or whether they may not have improved the DSM-IV or ICD-10 diagnoses and actually set the field back, as other experts have suggested. Importantly the panel will discuss future directions and ideas for ways forward.

National Center for PTSD-Dissemination and Training Division, Menlo Park, California, USA
University Ulm, Ulm, Germany
Cardiff and Vale University Health Board, Cardiff, Wales, United Kingdom

The ISTSS Guidelines Committee is currently developing updated Treatment Guidelines for PTSD informed by the research evidence base. The Committee includes experts from various professional backgrounds and areas of the world, including members with considerable systematic review and guideline development expertise. The ISTSS membership and key stakeholders are being consulted at all stages of the development process. A consumer (especially PTSD sufferer/ex-PTSD sufferer) perspective is being gathered through a consumer reference group. There is also a practitioner reference group comprising practitioners from different professional backgrounds who are not working in the trauma field. The Committee is liaising closely with the ISTSS Board, which is planning the dissemination of the treatment guidelines. The panel comprises members of the Committee who will provide an overview of the methodology being employed, the progress to date and next steps, before engaging in discussion with those attending.

Symposium

Sleep and Nightmares in PTSD: Advances in Neuroscience and Treatment

Primary Keyword: Clin Res
Secondary Keyword: Bio/Int-Sleep
Population Type: Adult
Presentation Level: M
Region: Global

Chair: Murray Raskind, MD
Discussant: Elaine Peskind, MD
Anne Germain, PhD; Thomas Mellman, MD; Richard Ross, MD, PhD; Murray Raskind, MD
1VA Northwest Network (VISN 20) Mental Illness Research, Education and Clinical Center (MIRECC), Seattle Washington, USA
2University of Washington School of Medicine, Seattle, Washington, USA
3University of Pittsburgh, Pittsburgh, Pennsylvania, USA
4Howard University College of Medicine, Washington, District of Columbia, USA
5Department of Veterans Affairs Medical Center (116 MHC), Philadelphia, Pennsylvania, USA

Sleep disturbance and nightmares are distressing clinical symptoms central to PTSD that often are resistant to commonly used psychotherapies and or pharmacotherapies. In turn, sleep impairment can also adversely affect the neural circuits underlying resilience to trauma and can contribute to adverse general health outcomes in PTSD. This symposium brings together clinical investigators with extensive research experience addressing both the neuroscience and treatment of those critically important nocturnal PTSD symptoms.

Recent neuroscience research findings on the effects of sleep deprivation on extinction learning and recall, and on increased autonomic arousal and immune activity in an urban minority sample with highly prevalent hypervigilant sleep fears and PTSD will be presented. The symposium also will address steps toward a “precision treatment” of nightmares and sleep disturbance. Data will be presented supporting: pretreatment blood pressure may be a useful “biomarker” for predicting response of trauma nightmares and sleep disturbance to prazosin in combat PTSD; clinical severity and demographic characteristics may influence nightmare response to imagery rehearsal therapy in Veterans; a brief behavioral treatment normalizes neural responses to threat in chronic insomnia; and alternative cognitive strategies along with behavioral modifications targeting the disruptive effects of nocturnal vigilance on sleep.

4Medical University of South Carolina, Charleston, South Carolina, USA
5University of New South Wales, Sydney, New South Wales, Australia
6University of Southern California, Los Angeles, California, USA

As the field of traumatic stress studies has evolved, we have learned many things that have caused us to change our minds—about the nature of traumatic exposure, its effects, and how these effects can be treated. This session brings together a group of leaders who have worked on issues that include population and global health, as well as technology, to discuss how and why they have changed previously held beliefs in light of experience and empirical evidence. The goal of the session is to illustrate the factors that have led to the changes and to discuss how the current state of knowledge continues to evolve.

PMI #7

Ethics for the International Trauma Specialists

Primary Keyword: Global
Secondary Keyword: Ethics-Global-Civil/War
Population Type: Prof
Presentation Level: M
Region: Global

Elena Cherepanov, PhD
Cambridge College, Boston, Massachusetts, USA

An international trauma specialist provides services to highly vulnerable and culturally diverse populations around the world. The unprecedented scale of human suffering, complexity of psychological needs and limited resources create particular professional and personal challenges and puts special demands on making independent, responsible and ethical decisions in extraordinary and often unique circumstances. Adherence to ethical principles sets standards for practice, gives a sense of professional community (Williams, 2012) and ensures a shared framework in every humanitarian response. The international perspective offers a guidance for the competent trauma care based on the international humanitarian principles: humanity, neutrality, impartiality, and independence (UNOCHA, 2012). In the first part of the training, the participants will learn about international humanitarian norms, universal humanitarian values, and limits of humanitarian actions as they apply to the trauma work and research. In the second part, participants will use case scenarios to further explore the role and responsibility of an international trauma specialist in the setting with complex needs; moral, cultural and ethical dilemmas; advocacy, media and communication; and ethically questionable practices: rescue fantasy, imposing moral judgments; fostering psychological dependence; misuse of power, or ignoring survivors’ competency. The review of the signs and consequences of the burnout in the field work highlights the importance of self-awareness and self-care as cornerstones of the professionalism and offers relevant coping skills.

Jon Elhai, PhD
University of Toledo, Toledo, Ohio, USA

In recent years, mental health professionals have increasingly incorporated information technology into patient care, including the use of smartphones, tablets and laptops for electronic communication, psychological assessment, homework assignment completion and record keeping. Yet weaknesses exist in these technologies that can put patient privacy at risk. This issue is especially salient when working with traumatic stress patients, given the sensitive nature of the narrative discussion that happens in trauma-focused psychotherapy (e.g., exposure interventions). In this workshop, issues of ethics, privacy and security of such technology will be discussed in regard to the treatment of traumatic stress patients. Common vulnerabilities empirically found with electronic privacy among mental health clinicians will be detailed. HIPAA regulations related to electronic security will be discussed. An introduction to the concept of “encryption” and its application to traumatic stress practice will be emphasized. I will also explain the relevance of social psychological theory on protection motivation to explaining the successful adoption of electronic security practices. Discussion and details are offered on free, easy to use software application solutions for securing patient communication and records. Also discussed are such issues as using encrypted wireless networks, secure email, encrypted messaging and video conferencing, privacy on social networks, and others. For non-technologically savvy users, this discussion will likely be unfamiliar; though the information will be presented in very basic, non-technical terms. Even for advanced, technologically savvy users, a good deal of this information will likely be unfamiliar and of interest.

Getting the Word Out on Complex Trauma: Use of Multimedia Resources to Support Education and Awareness for Youth and Families and Across Systems

Primary Keyword:   Train/Ed/Dis  
Secondary Keyword:   Assess Dx-CPA-Complex-Media  
Population Type:   Child/Adol  
Presentation Level:   I  
Region:   Industrialized  
Kisiel, Cassandra, PhD1; Fehrenbach, Tracy, PhD2; Habib, Mandy, PsyD1; Spinazzola, Joseph, PhD2
1Northwestern University Feinberg School of Medicine, Chicago, Illinois, USA  
2Adelphi University, Garden City, New York, USA  
3Trauma Center at Justice Resource Institute, Brookline, Massachusetts, USA

This workshop will feature innovative multimedia resources on complex trauma for youth, caregivers, and providers across service systems, developed in conjunction with the National Child Traumatic Stress Network. We will highlight the following educational resources: 1) a short film “Remembering Trauma: Connecting the Dots between Complex Trauma and Misdiagnosis in Youth” and 2) the Complex Trauma Resource Guide for Youth. The development of an upcoming complex trauma video- made by youth and for youth- will also be discussed. These products are all designed to: 1) enhance understanding of the complex effects of trauma across development, 2) reduce the potential for mislabeling or misdiagnosing symptoms of complex trauma, and 3) enhance public awareness and de-stigmatize trauma-related issues for youth across systems (mental health, child welfare, juvenile justice, schools). We will emphasize use and application of these resources in real world settings. These products are a response to feedback from youth and providers regarding needs and gaps and designed to support professionals across disciplines to use a “trauma lens” in their ongoing work. Participants will be engaged in discussion of how to effectively disseminate and utilize the resources in practice at both an individual level with youth and families and at a systems level for trauma education and advocacy.

Kristi Pruiksma, PhD; Rachel Micol, BS; Daniel Taylor, PhD
1University of Texas Health Science Center at San Antonio, Fort Hood, Texas, USA
2The University of Tulsa, Tulsa, Oklahoma, USA
3University of North Texas, Denton, Texas, USA

Nightmares and sleep disturbances are commonly reported following trauma and are considered the hallmark of posttraumatic stress disorder (PTSD). Historically, sleep disturbances have been conceptualized as secondary symptoms that will remit following PTSD treatment. However, coalescing lines of research indicate sleep disturbances are more than just PTSD symptoms, have likely become partially independent, and may be maintaining and exacerbating PTSD. Sleep disturbances may also remain following successful treatment of PTSD and are uniquely related to suicidality, depression, and substance use. There is strong evidence supporting non-medication treatments for insomnia and nightmares, yet many providers have not received adequate training in the implementation of these interventions. Thus the goals of this PMI are to (1) present the evidence base for cognitive behavioral therapy for insomnia (CBT-I) and Exposure, Relaxation, and Rescripting Therapy (ERRT) for nightmares and (2) to provide step-by-step guidance on how to implement these interventions in clinical practice. We will achieve these goals by presenting case examples, providing handouts to be used in clinical practice, video demonstrations as well as audience exercises to further reinforce the utility of these treatments.

Systematic Delivery of Exposure, Cognitive, and Behavioral Treatments for PTSD with a 16-Week Manualized Group Protocol

Primary Keyword: Clin Res
Secondary Keyword: Practice-Cog/Int-Mil/Vets-Gender
Population Type: Adult
Presentation Level: A
Region: Industrialized

Diane Castillo, PhD1; Janet C’de Baca, PhD2; Christine Chee, PhD2; Heidi La Bash, PhD1
1VA VISN 17 Center of Excellence for Research on Returning War Veterans, Waco, Texas, USA
2New Mexico VA Healthcare System, Albuquerque, New Mexico, USA

This is a two-part advanced workshop for clinicians wishing to use a group format to deliver exposure, cognitive, and behavioral treatments for PTSD. The first hour will cover the group literature, challenges to group treatment, and results from a unique 3-member randomized controlled trial with three treatment modules. The manualized 16-week group treatment showed improvement in PTSD (24-point decrease on the CAPS, p<.001, ES=1.72); on functioning (SF-36: Mental: p<.001, ES=1.31; and Physical, p<.001, ES=1.08); and in quality of life (QOLI: p<.001, ES=1.01) in a sample of female OEF/OIF PTSD Veterans. Clinical improvement was comparable to individual PE (Schnurr, et al., 2003), with 77% showing a response to treatment and 52% loss of diagnosis. PCL scores significantly improved for the Exposure (ES=1.42) and Cognitive (ES=0.90) modules, with both superior to the behavioral (Skills) module.

The second part of the workshop will be devoted to providing direction on how to conduct the novel 3-member, 3-module (Exposure, Cognitive, Skills) group treatment protocol. Instruction will include a combination of didactics, instructor demonstrations, and role play for attendees. Most unique to the protocol is conducting imaginal exposure in a 3-member, 90-minute group, with weekly in-session imaginal exposure for each group member. This protocol design addresses the logistic problem of exposure therapy in group. Orientation and Wrap up are conducted in sessions 1 and 16, respectively. Exposure Module (5 sessions). The rationale, identification of safety options, and index trauma are addressed in session 1. Guided imaginal exposure (Keane, et al., 1989; Foa, et al., 2007) is conducted in sessions 2 through 5, with 30 minutes devoted to each member. Cognitive Module (5 sessions). General cognitive restructuring is taught in session 1, with cognitive distortions on 5 themes (safety, trust, power/control, esteem/intimacy) from Cognitive Processing Therapy (Resick & Schnicke, 1993) challenged in sessions 2-5. Skills Module (4 sessions). Behavioral strategies including assertiveness training are implemented in sessions 1 and 2, and videotaped assertiveness roleplay in sessions 3 and 4. Relaxation techniques are reviewed and practiced in the last 30 minutes of each Skills session. Workshop participants will receive a manual describing the group protocol, including handouts for each treatment component. Participants will be encouraged to: actively participate in roleplays as a group facilitator; identify potential issues, and discuss components of successful group treatment. The group protocol is a practical and effective delivery option that systematically includes exposure, cognitive, and behavioral components for PTSD treatment.

PMI #4

The Interpersonal Paradox of Trauma: Principles and Practice of Treating Trauma in Couple and Family Systems

Primary Keyword: Practice
Secondary Keyword: Fam/Int-Theory
Population Type: Lifespan
Presentation Level: M
Region: Global

Briana Nelson Goff, PhD3; Lauren Oseland, MS, PhD Student4; Kami Schwerdtfeger Gallus, PhD, LMFT1; Laurel Kiser, PhD MBA2; Rachel Dekel, PhD4
1Kansas State University, Manhattan, Kansas, USA
2Oklahoma State University, Stillwater, Oklahoma, USA
3University of Maryland School of Medicine, Baltimore, Maryland, USA
4Bar-Ilan University, Ramat Gan, Ramat Gan, Israel

While the study of psychological trauma has traditionally focused on the development of individual symptoms in the person directly exposed to a traumatic event, research over the past 20 years invites a more dynamic conceptualization of the recursive relationship between trauma, interpersonal relationships, and broader contextual factors that influence the expression and duration of traumatic stress (e.g., Figley & Kiser, 2013; Goff & Smith, 2005). Trauma exposure is a multifaceted and complex experience that uniquely impacts...
individual survivors, their loved ones, and the social systems in which they live. In particular, there appears to be a basic, yet important paradox involved within the interpersonal context of trauma as trauma frequently erodes the strengths of and has a negative impact on the very interpersonal relationships that could promote recovery and posttraumatic growth (Johnson, 2002). Due to the interpersonal nature of trauma, traditional intervention and recovery-focused therapy on an individual level may be inadequate. In Part 1 of this PMI, the presenters will describe models of systemic trauma, based on current theories, research, and clinical experience, including Family Systems Theory, Ecological Systems Theory, and Attachment Theory. Specifically, The Couple Adaptation to Traumatic Stress Model (Goff & Smith, 2005; Oseland, Gallus, & Nelson Goff, 2016) and the Family Adaptation to Trauma Model (Figley & Kiser, 2013) will be reviewed. The presentation will disseminate information regarding the presented models, the primary issues faced by traumatized systems (i.e., couple, family, and community), and methods to apply these models to the empirical study of and clinical approaches with traumatized systems. In Part 2 of this PMI, the presenters will describe methods of engaging couple and family systems in trauma-informed systemic treatment approaches. This session will focus on practical skills for working systemically with couple and family systems, recognizing critical ethical issues in working with these groups, and addressing specific challenges that may be unique to trauma-exposed relational systems. Presenters have experience working in industrialized and developing countries with couples, families and communities coping with traumatic stress. Thus, the aim of this session is to provide applicable knowledge for clinicians from diverse backgrounds to bridge the gap between empirical and clinical approaches to working with trauma survivors and their families.

**PMI #5**

**Addressing Trauma and Grief in Adolescence: New Models, Measures, and Interventions**

**Primary Keyword:** Clin Res  
**Secondary Keyword:** Death-Dev/Int-Pub Health-Grief  
**Population Type:** Child/Adol  
**Presentation Level:** M  
**Region:** Global

William Saltzman, PhD(c); Christopher Layne, PhD; Julie Kaplow, PhD, ABPP; Robert Pynoos, MD, MPH; Erna Olafson, PhD, PsyD; Monique Marrow, PhD  
1California State University, Long Beach, Long Beach, California, USA  
2UCLA - National Center for Child Traumatic Stress, Los Angeles, California, USA  
3University of Texas Health Science Center, Houston, Texas, USA  
4University of Cincinnati, Cincinnati, Ohio, USA  
5University of Kentucky Center for the Study of Violence Against Children, Lexington, KY 40506, Kentucky, USA

Converging developments in basic and applied research suggest that posttraumatic stress and grief reactions are related yet different entities that call for different assessment measures and intervention components. Further, trauma and bereavement often co-occur, especially among adolescents—an age group at highest risk for exposure to violent crime, traumatic injury, and traumatic death. This PMI will cover recent advances in the treatment of the effects of trauma and bereavement in adolescence, including an evidence-based intervention for traumatized and bereaved adolescents—Trauma and Grief Component Therapy for Adolescents (TGCT-A). TGCT-A is an assessment-driven, modularized intervention that can be flexibly tailored according to the exposure histories, needs, strengths, and life circumstances of specific groups and individuals. We will begin with an overview of the developmental tasks, capacities, and needs of adolescents, and the window of opportunity offered by adolescence for intervention. We will then discuss recent advances in conceptualizing, assessing, and treating the interplay between trauma and bereavement as viewed through the lens of multidimensional grief theory. We will then present findings from domestic and international open field trials, qualitative studies, and a large-scale randomized controlled field trial, which show consistent evidence of the effectiveness of TGCT-A in reducing posttraumatic stress and maladaptive grief reactions, and improving academic
performance, peer relationships, and pro-social behaviors. We will then discuss how TGCT-A components, paired with properly designed assessment measures, can be tailored to provide universal (broad-spectrum), targeted (specialized), and preventive (resilience-enhancing) services in school, juvenile justice, and child welfare settings. We illustrate methods for providing state-of-the-art treatment for posttraumatic stress and grief reactions to vulnerable adolescents with complex histories of trauma and loss in ways that abide by public health principles—including identifying high-risk groups, stratifying groups by exposure severity and type of need, and improving access to services. Given its utility for juvenile justice, we will review a recently published multi-year evaluation of TGCT-A paired with trauma-informed staff training (Think Trauma) at six residential facilities, which found significant pre-post reductions in posttraumatic stress, depression and anger symptoms, seclusions, and restraints. We will conclude with demonstrations of ways to use TGCT-A’s modularized design to customize intervention for either groups or individuals with different assessment profiles, as well as discussion of next steps in research and program dissemination.

PMI #6

Trauma-informed Primary Care: A Practical Approach

Primary Keyword: Practice
Secondary Keyword: Health-Care
Population Type: Lifespan
Presentation Level: M
Region: N/A

Jennifer Ayres, PhD1; Karen Sitterle, PhD2
1University of Texas at Austin, Austin, Texas, USA
2University of Texas Southwestern, Dallas, Texas, USA

Patients who are reluctant to self-refer for psychotherapy are often more receptive to receiving behavioral health services integrated into medical care. Intervention with patients with histories of recent or past trauma presenting for primary care gives medical and mental health providers an opportunity to address the neurobiological aspects of trauma in an integrated fashion that fosters interdisciplinary collaboration. This pre-meeting institute (PMI) will address (1) the unique challenges and benefits of intervening with trauma survivors in primary care settings, (2) how to provide interdisciplinary trauma training that addresses impact of traumatic life events on patient health, (3) quick and efficient screening for trauma history, intimate partner violence, traumatic grief & loss, trauma due to injury, illness, or medical procedures (4) the continuum of trauma-informed interventions ranging from single session, short-term (EBTs), and patient education, and (5) how to provide linkage to community resources, including outpatient behavioral health, shelter, legal resources. Providers in primary care settings find themselves addressing the needs of survivors of abuse, natural & manmade disasters, traumatic grief & loss, medical trauma, and intimate partner violence. Interventions need to recognize the common clinical needs of survivors (e.g., coping with emotional & physical pain, grief & loss, finding meaning following painful experiences, and self-identity shifts from trauma victim to survivor) and simultaneously be flexible enough to address trauma-specific needs of survivors (e.g., avoidance issues, preparing for anticipated trigger situations).

This PMI will focus on how to overcome barriers and limitations to providing trauma-informed care in primary care settings (e.g., short appointment slots, busy schedules, lack of resources for mental health services, limited financial and transportation resources, and treatment adherence issues). Case examples will be presented.

Half Day Institute
1:30 p.m. – 5:00 p.m.

PMI #7

Ethics for the International Trauma Specialists

Primary Keyword: Global
Secondary Keyword: Ethics-Global-Civil/War
Population Type: Prof
Presentation Level: M
Region: Global

Elena Cherepanov, PhD
Cambridge College, Boston, Massachusetts, USA

An international trauma specialist provides services to highly vulnerable and culturally diverse populations around the world. The unprecedented scale of human suffering, complexity of psychological needs and limited resources create particular professional and personal challenges and puts special demands on making independent, responsible and ethical decisions in extraordinary and often unique circumstances. Adherence to ethical principles sets standards for practice, gives a sense of professional community (Williams, 2012) and ensures a shared framework in every humanitarian response. The international perspective offers a guidance for the competent trauma care based on the international humanitarian principles: humanity, neutrality,
impartiality, and independence (UNOCHA, 2012). In the first part of the training, the participants will learn about international humanitarian norms, universal humanitarian values, and limits of humanitarian actions as they apply to the trauma work and research. In the second part, participants will use case scenarios to further explore the role and responsibility of an international trauma specialist in the setting with complex needs; moral, cultural and ethical dilemmas; advocacy, media and communication; and ethically questionable practices: rescue fantasy, imposing moral judgments; fostering psychological dependence; misuse of power, or ignoring survivors’ competency. The review of the signs and consequences of the burnout in the field work highlights the importance of self-awareness and self-care as cornerstones of the professionalism, and offers relevant coping skills.

**Half Day Institute**

1:30 p.m. – 5:00 p.m.

**PMI #8**

**Dropping the Trauma Account: Intro into Cognitive Processing Therapy—Cognitive Only**

Primary Keyword: Practice

Secondary Keyword: Clin Res-Practice-Cog/Int

Population Type: Adult

Presentation Level: I

Region: Industrialized

Katherine Dondanville, PsyD; Patricia Resick, PhD, ABPP

1 University of Texas Health Science Center at San Antonio, San Antonio, Texas, USA

2 Duke University Medical Center, Durham, North Carolina, USA

CPT is an evidence-based cognitive therapy for PTSD and comorbid symptoms that can be implemented without a written account. For over a decade trainings in Cognitive Processing Therapy (CPT) have exclusively taught CPT including the trauma account as an assignment. Results from a dismantling study (Resick et al., 2008) indicate the trauma account is a non-essential element for symptom change. CPT- Cognitive Only (CPT-C) was found to be equally effective and more efficient than utilizing the traditional model. Most importantly, eliminating the trauma account may prevent patient drop-out. The purpose of this institute is to provide attendees the basics of cognitive processing therapy – cognitive only (CPT-C) and facilitate a discussion about making the transition for those practicing CPT with the trauma account. Clinicians may be more comfortable with providing the version of CPT that does require writing and reading a trauma account or may have been in the habit of doing so and are unsure of how to conduct the protocol without the written narrative. CPT-C is a systematic approach to treating PTSD in which participants are encouraged to feel their emotions and learn to think about their traumatic events differently. The institute includes a functional cognitive description of why some people do not recover after traumatization. Following a review of research on CPT-C, participants will receive an overview of the 12-session therapy, with an emphasis on the differences between CPT and CPT-C. The use of Socratic Dialogue to facilitate emotional processing will be reviewed, along with research regarding who may respond better to treatment with or without a trauma narrative. Specific trauma details will be discussed and presented in video-recorded sessions. Role-play and consultation will be included.

**Half Day Institute**

1:30 p.m. – 5:00 p.m.

Dallas D1

**PMI #9**

**Use of Expert Evidence on Counterintuitive Victim Behavior in Sexual Assault Prosecution**

Primary Keyword: Train/Ed/Dis

Secondary Keyword: DV-Rape-Social-Gender

Population Type: Adult

Presentation Level: I

Region: Industrialized

Mindy Mechanic, PhD

California State University, Fullerton, Fullerton, California, USA

The goal of the proposed PMI is to provide trauma professionals with education and training on the use of expert testimony on counterintuitive victim behavior in sexual assault prosecutions. Such training will provide trauma professionals with valuable knowledge, enabling them to share their knowledge with judges and juries. The term “counterintuitive victim behavior” (CIVB) refers to behavioral, emotional, or physical responses observed among, or reported by trauma/crime victims that can be understood within the context of that trauma/victimization, but which lay persons fail to understand or misunderstand due to lack of information, myths and stereotypes or other misconceptions held about how ‘real’ victims behave or ought to behave. It includes actions, behaviors, feelings, and other responses, in addition to failures to respond in expected ways. Courts across the U.S. have admitted CIVB testimony in the prosecution of sexual assault. When lay persons fail to accurately understand the reality of IPA/sexual assault, they apply their own incorrect assumptions about how ‘real’ victims behave or ought to behave,
consequently judging victims as not credible and dismissing their accounts as lacking veracity. Expert testimony on CIVB can help to rebut prevailing myths and misunderstandings about the nature of, and responses to sexual assault, particularly non-stranger sexual assault, in contrast to the prevailing ‘stranger danger’ mythology. Expert testimony can be used to provide a framework or context, within which to interpret a sexually assaulted woman’s behavior, helping to make sense out of the unimaginable things that simply do not make logical sense when viewed out of the unique context in which they occurred. This is particularly true for acts that defy lay expectations, e.g., compliance perpetrator demands, lack of forceful resistance, and lack of affect post-assault. CIVB evidence offers jurors a framework for fairly interpreting and evaluating victim accounts without dismissing them as disingenuous. In addition to myths and misunderstandings about how victims respond to sexual assault or IPSA, many aspects of trauma-related behavior are unfamiliar and counterintuitive to them. Such topics include traumatic memory; delayed reporting/disclosure; lack of effect when recounting the assault; incomplete or inconsistent statements to the police or other providers; continued contact with the alleged offender, particularly in non-stranger sexual assault cases; returning to life as usual following assault.

Half Day Institute
1:30 p.m. – 5:00 p.m.

PMI #10
Learning To Effectively Administer and Score the Clinician-administered PTSD Scale for DSM-5 (CAPS-5)

Michelle Bovin, PhD\(^1\); Frank Weathers, PhD\(^2\)
\(\text{1VA Boston Healthcare System, National Center for PTSD;}
\text{Boston University School of Medicine, Boston, Massachusetts,}
\text{USA}
\text{2Auburn University, Auburn, Alabama, USA}

Reliable and valid assessment of posttraumatic stress disorder (PTSD) is essential for correctly identifying individuals with this debilitating disorder. Structured diagnostic interviews are considered the “gold standard” for assessing PTSD symptoms and establishing PTSD diagnostic status (Bovin, Marx, & Schnurr, 2015). Since its development in 1990 at the National Center for PTSD, the Clinician-Administered PTSD Scale (CAPS; Blake et al., 1990) has become the most widely used structured interview for PTSD (Bovin & Weathers, 2012). In response to the significant revisions made to the PTSD diagnosis for the fifth edition of the Diagnostic and Statistical Manual of Mental Disorders (DSM-5; APA, 2013), the CAPS was recently revised to reflect the new criteria. The goals for the revision were to ensure correspondence with DSM-5, retain distinctive features and maximize backward compatibility with earlier versions of the CAPS, and streamline administration and scoring (Weathers, 2014). Initial evaluation of the CAPS-5 indicates that it maintains the excellent psychometric properties of its predecessors (Weathers et al., in preparation).

Because the DSM-5 PTSD criteria constitute the current official definition of PTSD and reflect an updated conceptualization of the disorder, it is essential for clinicians and investigators to begin using DSM-5–compatible measures such as the CAPS-5 as soon as possible -- measures reflecting DSM-IV criteria are now outdated. However, because of the changes made to both the structure and the content of the CAPS-5, careful training on the new version of the instrument is required to ensure that the measure is administered and scored accurately. Accordingly, the purpose of this pre-meeting institute is to provide attendees with an in-depth examination of the CAPS-5 so they can begin to use it effectively in their own clinics and laboratories. This important and timely workshop will review the following topics:

1. The history of the CAPS and the rationale for the new format for the CAPS-5;
2. The three versions of the CAPS-5 and when each can be employed effectively;
3. Guidelines for standard administration and scoring;
4. Tips for effectively handling common challenges that occur during CAPS-5 interviews.

In order to provide a “hands-on” training experience, participants will watch a live mock CAPS-5 interview, score each item in real time, and have the opportunity to ask questions about the rationale behind administration and scoring decisions.

PMI #11

Working with PTSD in Refugees and Asylum Seekers

Primary Keyword: Practice  
Secondary Keyword: Cul Div-Refugee-Torture-Theory  
Population Type: Adult  
Presentation Level: M  
Region: Industrialized  

Kerry Young, PhD  
Central and North West London NHS Foundation Trust,  
London, England, United Kingdom

Many countries across the world have seen a dramatic increase in the number of people seeking asylum. Currently, there are thought to be approximately 19 million official refugees worldwide (UNHCR, 2016). While estimates vary, we expect up to half of those seeking asylum to suffer from PTSD (Bogic et al., 2012; Turner et al., 2001). Thus, there is a pressing need for evidence-based interventions for treating PTSD in this group.

There are well-established protocols for the effective treatment of PTSD using trauma-focused therapies (e.g. Ehlers et al. 2005; McLean and Foa, 2011; Resick et al., 2012). However, there is relatively little information about how to adapt these therapies for PTSD resulting from multiple traumatic events in refugee populations. Currently, the weight of what evidence there is points to the effectiveness of Narrative Exposure Therapy (NET) (Schauer, Neuner & Elbert, 2005) in the treatment of multiply traumatized refugees and asylum seekers (see Robjant and Fazel, 2010 for a review). There has also been some work adapting Cognitive Processing Therapy (CPT) (Kaysen et al., 2011; Bass et al., 2013) and standard Imagery Re-scripting (ImRS) protocols in this population (Arntz et al., 2013).

In this workshop, I will give participants a theoretical and practical framework for the cognitive-behavioural assessment and treatment of refugees and asylum seekers with PTSD, using the aforementioned evidence base as a guide. Topics covered will be:

- Working with interpreters
- Cultural modifications of trauma-focused therapy
- What to consider at assessment
- What theoretical framework to use for formulation
- Treatment planning
- How to do reliving and other evidence-based treatments with people who have experienced multiple traumatic events
- Outcome research in this area

The workshop will involve formal presentations, case discussion, lots of video role-play of techniques and group discussion.
Paper in a Day

Wednesday, November 9
8:30 a.m. – 5:00 p.m. – Plus Pre- and Post-Meeting Assignments
Trinity 1

Paper in a Day grew out of a wish to foster collaborations between young researchers from around the world. Many of these researchers will be future leaders in the domain of posttraumatic mental health and the field will benefit from their partnerships and teamwork. Paper in a Day is designed to stimulate international connections and the exchange of ideas by working on a tangible outcome: a brief paper or commentary for a peer-reviewed journal. This will be an intensive, productive and enjoyable day. Previous editions have led to conference contributions, journal articles, and lasting contacts (see the recent article in Traumatic Stress Points for more information). Because Paper in a Day will take place prior to the ISTSS annual meeting, participants will have the opportunity to continue dialogue with colleagues during the conference.

Program
After registration, participants will be assigned to a team. Each team will choose a topic based on shared interests. Two weeks prior to the workshop, participants will individually prepare (e.g., read relevant articles, draft sections of the paper). The workshop will include plenary discussions about the topic and the drafted texts, and writing time in subgroups. Following the workshop, the draft will be finalized for submission.

Commitment
In order to make the event a success, we ask participants to commit to:

a) Prepare in advance of the meeting - dedicate eight hours prior to the workshop.

b) Be present for the entire workshop.

c) Contribute to the final editing and referencing following the workshop.

How to participate
This event is aimed at early career academics who have obtained their PhD after November 2011 or who are in the final stages of submission. If you would like to participate, please send an email to sadieelarsen@gmail.com by October 1, 2016 (first come, first serve) with the following information:

1) A short CV listing your publications and main research interests to inform our choice of topics. Please also let us know if you have an idea for/access to data to complete a relatively contained empirical paper, meta-analysis/review, or commentary on a recent article.

2) A statement that you commit to the required preparation, attendance and follow-up activities as described.

There is no registration fee for this PMI.

ISTSS Special Interest Groups

Special Interest Groups (SIGs) provide members with a forum for communication and interaction about specific topics related to traumatic stress. They provide a means of personal and professional involvement in the activities of the society. All meeting participants are welcome to attend SIG meetings.

Thursday, November 10, 11:45 a.m. – 1:00 p.m.

## SIG Endorsed Presentations

### Aging, Trauma and the Life Course SIG
*Thursday, November 10, 1:15 p.m. – 2:30 p.m.*
- Symposium: New Directions in Assessing Trauma and Adversity across the Lifespan: A Public Health Imperative
- Paper Presentation: The Influence of Comorbid Depression on Treatment Outcome among Older Male Combat Veterans with PTSD
- Paper Presentation: Longitudinal Association of PTSD and Physical Function in Military Veterans: Data from the Mind Your Heart Study

### Complex Trauma
*Thursday, November 10, 4:15 p.m. – 5:30 p.m.*
- Symposium: Core Symptoms of ‘Classic’ PTSD and Complex PTSD – and their Relation to DSM-5 PTSD
- Symposium: The Social Self: Contributions of Disruptions in Emotion and Physiology to Relational Processes in Trauma
- Symposium: The Influence of Social Resources on Adjustment Following Trauma

### Early Intervention SIG
*Thursday, November 10, 1:15 p.m. – 2:30 p.m.*
- Symposium: Prediction of Posttraumatic Psychopathology in Recent Trauma Survivors, Do We Need Biology?
- Workshop: Early Interventions Following Terrorist Attacks: From the Emergency Room to the Living Room
- Symposium: Designing and Implementing Broad Reach Early Trauma Focused Interventions for Public Health Dissemination

### Gender and Trauma SIG
*Thursday, November 10, 10:15 a.m. – 11:30 a.m.*
- Symposium: Sex Specificity in Posttraumatic Stress Disorder: From Biological Mechanisms to Treatment Response
- Symposium: The Effects of Stress and Sex Hormones on Mechanisms of Posttraumatic Stress Disorder
- Symposium: Trauma, PTSD, and Women’s Reproductive Health

### Genomics and Trauma SIG
*Thursday, November 10, 4:15 p.m. – 5:30 p.m.*
- Symposium: Epigenetic Insights into Post-traumatic Stress Disorder: Novel Results from Psychiatric Genomics Consortium Investigators
- Keynote Address: Epigenetic Regulation of Stress Genes and Their Role In Stress-related Psychiatric Disorders: FKBPS5 as an Example
- Updates from the Psychiatric Genomics Consortium for PTSD: GWAS, EWAS, Expression, and Imaging

### Lesbian, Gay, Bisexual & Transgender (LGBT) SIG
*Friday, November 11, 4:15 p.m. – 5:30 p.m.*
- Symposium Part: Does PTSD Predict Marijuana Use? Event-level Relationships between PTSD and Marijuana Use among Young Sexual Minority Women
**SIG Endorsed Presentations**

**Military SIG**
Thursday, November 10, 1:15 p.m. – 2:30 p.m.
Symposium: Examining the Impact of PTSD on Work, Family, and Other Related Quality of Life Outcomes in Veterans of the Wars in Iraq and Afghanistan

Thursday, November 10, 1:15 p.m. – 2:30 p.m.
Treatment One Paper Session

Friday, November 11, 10:15 a.m. – 11:30 a.m.
Symposium: Factors Influencing Long-term Functional Recovery among Warzone-Deployed Service Members

**Trauma and Substance Use Disorders SIG**
Thursday, November 10, 1:15 p.m. – 2:30 p.m.
Symposium Part: Treatment of PTSD and Comorbid Addiction with N-acetylcysteine

Friday, November 11, 10:15 a.m. – 11:30 a.m.
Symposium Part: A Randomized Clinical Trial of Sequential Versus Integrated Treatment for Veterans with Co-Occurring PTSD and Substance Use Disorders

Friday, November 11, 4:15 p.m. – 5:30 p.m.
Symposium Part: Chronic Cannabis Use is Associated with Impaired Fear Extinction in Humans

**Trauma Assessment and Diagnosis SIG**
Thursday, November 10, 10:15 a.m. – 11:30 a.m.
Symposium Part: Advanced Computational Methods Improve the Prediction of Post-traumatic Psychopathology in Acutely Traumatized Adults

Friday, November 11, 10:15 a.m. – 11:30 a.m.

Friday, November 11, 10:15 a.m. – 11:30 a.m.
Paper presentation: Network Models of DSM-5 Posttraumatic Stress Disorder: Implications for ICD-11

**Traumatic Loss and Grief SIG**
Wednesday, November 9, 8:30 a.m. – Noon
PMI #5 Addressing Trauma and Grief in Adolescence: New Models, Measures, and Interventions

Thursday, November 10, 10:15 a.m. – 11:30 a.m.

Thursday, November 10, 1:15 p.m. – 2:30 p.m.
Symposium: Sudden and Violent Deaths: Implications for Improved Public Health Response

Friday, November 11, 1:15 p.m. – 2:30 p.m.
Symposium: Youth Positive Adaptation in the Aftermath of Trauma and Loss: Implications for Intervention and Public Policy
ISTSS 32nd Annual Meeting Award Winners

The ISTSS Awards will be presented at the start of each morning’s Keynote Session

Thursday, November 10
Frank W. Putnam Trauma Research Scholar Grants

Lifetime Achievement Award
Ulrich Schnyder, MD

- Mental-Health Professionals (Prof)
- Other Professionals (Other)

Presentation Level
All presentations designate the knowledge/skill level required of the participant as either: Introductory (I), Intermediate (M) or Advanced (A). These are used as a general guide only since attendees have very diverse educational and professional backgrounds.

Introductory (I): Presentations that all participants (including undergraduate students) with any appropriate background will be able to fully comprehend and/appreciate. Presentations will discuss concepts that are considered basic skills/knowledge for those working in the field.

Intermediate (M): Presentations that participants may more fully comprehend/appreciate if they have at least some work experience in the topic to be discussed.

Advanced (A): Presentations consisting of concepts requiring a high-level of previous educational background, or work experience, in the particular area/topic to be discussed as well as being most geared for specialists and those in advanced stages of their career.

Presentation Type Descriptions*

● Case Study Presentation
Sessions use material from a single or a set of cases to illustrate clinical, theoretical or policy issues. These sessions may involve the audience in discussion of the case material presented.

● Media Presentation
Session involving presentation of a segment of film, video, music, drama, literature, artwork or other form of media relevant to traumatic stress, along with discussion.

● Oral Paper Presentation
Individual presentations of no more than 15 minutes on a topic related to traumatic stress, typically including the presentation of research data.

● Panel Presentation
Sessions that include three to four participants discussing a common theme, issue or question. Panels may include short statements during which panelists outline diverse or similar approaches to the same question. Panels are typically more interactive than symposia, involving active discussion among the panelists.

● Poster Presentation
Individual presentation in a poster format on a topic related to traumatic stress, typically including the presentation of research data.

● Pre-Meeting Institute (PMI)
Institutes are full- or half-day sessions that provide an opportunity for intensive training on topics integral to the conference program, presented by leaders in the field.

● Symposium
Session that includes a group of three to four sequential presentations, each related to the overall theme of the symposium.

● Workshop Presentation
Instructional session that helps increase participants’ understanding and skill in a particular area of interest. Such sessions may include active involvement of the audience.

* Presentation types are color-coded throughout the schedule.

## Daily Schedule
**Thursday, November 10, 10:15 a.m. – 11:30 a.m.**

### Concurrent Session One

#### Symposium Dallas A1

**How does Media Coverage of Traumatic Events Impact the Populace and Those Who Report It? Evidence from Survey and Experimental Research**

*Chair* (Garfin, Dana Rose, PhD)  
*Discussant* (Galea, Sandro, MD, DrPH)

- Hours vs. Images: Understanding how Media-based Collective Trauma Exposure is Linked to Psychological Well-being  
  *(Holman, E. Alison, PhD; Garfin, Dana Rose, PhD; Cohen Silver, Roxane, PhD)*  
  *(Pub Health, Terror, Adult, Industrialized)*

- Media Exposure to the Ebola Public Health Crisis and Implications for Public Health in an Industrialized Nation  
  *(Garfin, Dana Rose, PhD; Holman, E. Alison, PhD; Fischhoff, Baruch, PhD; Wong-Parodi, Gabrielle, PhD; Cohen Silver, Roxane, PhD)*  
  *(Pub Health, Health, Adult, Industrialized)*

- Intrusive Memories Following Film Footage with Traumatic Content: Insights from Experimental Psychopathology  
  *(Holmes, Emily, PhD; James, Ella, PhD)*  
  *(Prevent, Cog/Int, Prevent, Pub Health, Res Meth, Adult, N/A)*

- Posttraumatic Stress among Photojournalists: An Occupational Hazard of Repeated Exposure to Trauma  
  *(Redmond, Sarah, Doctoral Student; Cohen Silver, Roxane, PhD; Lubens, Pauline, PhD Candidate)*  
  *(Journalism, Civil/War, Adult, N/A)*

#### Symposium Dallas A2

**New Computational Methods for PTSD Research**

*Chair* (Saxe, Glenn, MD)  
*Discussant* (Marmar, Charles, MD)

- Risk Factors for PTSD in Children: New Computational Methods  
  *(Saxe, Glenn, MD)*  
  *(Res Meth, Acc/Inj, Bio Med, Genetic, Child/Adol, N/A)*

- Identification of High Dimensional Genetic & Phenotypic Interactions that Regulate the Emergence of Posttraumatic Stress & Resilience following Life Threat in a Prospective Cohort of Police Officers  
  *(Galatzer-Levy, Isaac, PhD; Marmar, Charles, MD)*  
  *(Bio Med, Acute, Chronic, Sleep, Genetic, Adult, Industrialized)*

- Advanced Computational Methods Improve the Prediction of Post-traumatic Psychopathology in Acutely Traumatized Adults.  
  *(Shalev, Arieh, MD; Galatzer-Levy, Isaac, PhD; Qi, Wei, MD; Gevonden, Martin, PhD; Marmar, Charles, MD)*  
  *(Assess Dx, Acute, Assess Dx, Bio Med, Prevent, Adult, Global)*

- Brain Entropy as a Substrate of Psychological States in Trauma Victims  
  *(Calderone, Daniel, PhD)*  
  *(Bio Med, Res Meth, Neuro, Theory, Child/Adol, Industrialized)*
## Daily Schedule

<tr>
<th>Symposium</th>
<th>New Directions in Assessing Trauma and Adversity Across the Lifespan: A Public Health Imperative</th>
<th></th>
</tr>
</thead>
</table>
| Dallas D3 | *Chair (Ford, Julian, PhD)*  
Screening for Childhood Adversity with Depressed and Non-depressed Older Adults  
(*Ford, Julian, PhD*; *Steffens, David, MD*; *Wu, Rong, MS*)  
(Assess Dx, Assess Dx, Dev/Int, Pub Health, Aging, Older, Industrialized)  
Initial Psychometric Properties of the Structured Trauma-related Experiences and Symptoms Screener for Adults in a Prenatal Care Clinic Sample of Pregnant Women  
(*Grasso, Damion, PhD*; *Ford, Julian, PhD*; *Greene, Carolyn, PhD*)  
(Assess Dx, Assess Dx, CPA, CSA, Prevent, Adult, Industrialized)  
Rapid Assessment of Pediatric Adversity and Trauma (RAPAT): A Two-Part Process  
(*Sugar, Jeff, MD*)  
(Assess Dx, CPA, Practice, Health, Prevent, Child/Adol, Industrialized)  
Identifying Classes of Trauma Exposure Across the Life Span: Findings from a Multi-survey Latent Class Analysis  
(*Steel, Zachary, PhD*; *O’Donnell, Meaghan, PhD*; *Hadzi-Pavlovic, Dusan, MPsych*; *McFarlane, Alexander, MD*; *Van Hooff, Miranda, BA (Hons)*; *Bryant, Richard, PhD*)  
(Pub Health, CPA, Chronic, Gender, Lifespan, Industrialized) |

| San Antonio A | *Chair (Shaleyv, Arieh, MD)*  
Integrating Early Neuroendocrine and Behavioral Responses to Predict the Development of PTSD  
(*Galatzer-Levy, Isaac, PhD*; *Ma, Sisi, PhD*; *Shaleyv, Arieh, MD*)  
(Res Meth, Assess Dx, Bio Med, Adult, Global)  
Early Symptoms Predict Long-term PTSD in an International Pooled Sample  
(*Gevorden, Martin, PhD*; *Ratanatharathorn, Andrew, MA, PhD Student*; *Qi, Wei, MD*; *Bryant, Richard, PhD*; *Delahanty, Douglas, PhD*; *Matsuoka, Yutaka, MD PhD*; *O’Connor, Paul, BSc*; *Ofif, Miranda, PhD*; *Robinson, James, MS, Ed*; *Schnyder, Ulrich, MD*; *Koenen, Karestan, PhD*; *Laska, Eugene, PhD*; *Shaleyv, Arieh, MD*)  
(Assess Dx, Acc/Inj, Acute, Prevent, Adult, Global)  
Closing the Gap between Risk Factors and Prognostic Prediction of PTSD  
(*Qi, Wei, MD*; *Gevorden, Martin, PhD*; *Ratanatharathorn, Andrew, MS, PhD Student*; *Shaleyv, Arieh, MD*; *Koenen, Karestan, PhD*)  
(Clin Res, Prevent, Res Meth, Adult, Global)  
Can Network Associations of Psychological and Biological Factors Predict PTSD?  
(*Bryant, Richard, PhD*; *O’Donnell, Meaghan, PhD*; *Creamer, Mark, PhD*; *Forbes, David, PhD*; *McFarlane, Alexander, MD*; *Silove, Derrick, MD PhD*)  
(Assess Dx, Acc/Inj, Prevent, Res Meth, Adult, Industrialized) |
### Daily Schedule

**Thursday, November 10, 1:15 p.m. – 2:30 p.m.**

**Concurrent Session Two**

| Panel Presentation Houston A | What Next? Sustainment of Evidence-based Practices  
*Lang, Jason, PhD; Ake, George, PhD; Berliner, Lucy, MSW; Halladay Goldman, Jane, PhD, MSW*  
(Train/Ed/Dis, CPA, Clin Res, Commun, Child/Adol, Industrialized) | M |
| --- | --- | --- |
| Workshop Presentation Dallas A3 | Exposure, Relaxation, and Rescripting Therapy for Children: A Cognitive Behavioral Treatment for Child and Adolescent Trauma Related Nightmares  
*Cromer, Lisa, PhD; Borntrager, Cameo, PhD; Fernandez Lopez, Shantel, PhD*  
(Clin Res, Sleep, Child/Adol, N/A) | I |
| Paper Session Houston B | Neuroimaging One Paper Session  
*Moderator: (Teicher, Martin, MD, PhD)*  
Combining Acute Stress Symptoms and Hippocampal Volume in Machine Learning Prediction of PTSD  
*Wang, Xin, MD, PhD; Xie, Hong, MD, PhD; Kessler, Daniel, MS; Elhai, Jon, PhD; Liberzon, Israel, MD*  
(Bio Med, Neuro, Adult, Global) | A |
| | Epigenetic Profiles Associated with Childhood Maltreatment and Post-traumatic Stress Disorder  
*Bustamante, Angela, BS, MS; Aiello, Allison, MS, PhD; Koenen, Karestan, PhD; Ratanatharathorn, Andrew, MS, PhD Student; Wildman, Derek, PhD; Uddin, Monica, PhD*  
(Bio Med, Anx, Bio Med, CPA, Genetic, Adult, Industrialized) | M |
| | Structural Alterations in the Brain and their Associations with Psychological and Psychosocial Characteristics in Sexual Assault Victims  
*Berman, Zohar, Doctoral Student; Assaf, Yaniv, PhD; Tarrasch, Ricardo, PhD; Ginzburg, Karni, PhD; Joel, Daphna, PhD*  
(Bio Med, Affect/Int, Rape, Social, Neuro, Adult, Industrialized) | M |
| | Interactive Sensitizing Effects of Early and Later Exposure to Childhood Maltreatment on Amygdala Volume  
*Teicher, Martin, MD, PhD; Anderson, Carl, PhD; Ohashi, Kyoko, PhD; McGreenery, Cynthia, Assistant; Bolger, Elizabeth, MA; Khan, Alaptagin, MD*  
(Bio Med, CPA, CSA, Neglect, Neuro, Lifespan, Industrialized) | M |

## Daily Schedule

**Thursday, November 10, 2:45 p.m. – 4:00 p.m.**  
**Concurrent Session Three**

### Symposium Dallas D1

**The Effects of Stress and Sex Hormones on Mechanisms of Posttraumatic Stress Disorder**  
*Chair (Felmingham, Kim, PhD)*

- Sex Hormones, Imagery, and Emotional Memories  
  *(Bryant, Richard, PhD; Felmingham, Kim, PhD)*  
  (Bio Med, Bio/IntAdult, Industrialized)
- Neurobiological Mechanisms of Menstrual Cycle Effects on Extinction Retention among Women with and without PTSD  
  *(Pineles, Suzanne, PhD; Irvine, John, PhD; Webb, Andrea, PhD; Nilini, Yael, PhD; Resick, Patricia, PhD, ABPP; Orr, Scott, PhD; Rasmusson, Ann, MD)*  
  (Bio Med, Bio/Int, Gender, Adult, Industrialized)
- Elevated Baseline Noradrenaline Interacts with Impaired Fear Extinction in PTSD  
  *(Zuj, Daniel, PhD Candidate; Palmer, Matt, BA (Hons), PhD; Felmingham, Kim, PhD)*  
  (Bio Med, Bio Med, Bio/Int, Adult, Global)
- Sex Hormones Moderate the Relationship between Stress Hormones and Negative Intrusive Memories Following Trauma  
  *(Felmingham, Kim, PhD; Zuj, Daniel, PhD Candidate; Nicholson, Emma, BSc Hons Psychology; Chia Ming Hsu, Ken, MPsynch)*  
  (Bio Med, Bio Med, Bio/Int, Gender, Adult, Industrialized)

### Symposium Dallas D3

**Posttraumatic Dissociation: Intergroup and Interindividual Variability, Impact on Treatment, and Brief Assessment**  
*Chair (Carlson, Eve, PhD)*

- The Structure of the Dissociation Symptoms Scale Across Race and Ethnicity: A Test of Measurement Invariance Using Latent Class Analysis in a Non–Clinical Sample  
  *(Anglin, Deidre, PhD; Carlson, Eve, PhD; Espinosa, Adriana, PhD; Waelde, Lynn, PhD; Polanco-Roman, Lillian, MA, PhD Student; Macia, Kathryn, BS; Palmieri, Patrick, PhD; Smith, Steve, PhD)*  
  (Assess Dx, Clin Res, Cul Div, Ethnic, Adult, Industrialized)
- Heterogeneity in Manifestations of Dissociation across Individuals from Diverse Clinical and Non–Clinical Samples  
  *(Macia, Kathryn, PhD Student; Carlson, Eve, PhD; Waelde, Lynn, PhD; Palmieri, Patrick, PhD)*  
  (Assess Dx, Cul Div, Theory, Adult, Industrialized)
- Dissociation During Psychotherapeutic Sessions Jeopardizes Successful Exposure-based Treatment of PTSD  
  *(Kleindienst, Nikolaus, PhD)*  
  (Clin Res, CSA, Adult, Industrialized)
- Development and Validation of a Short Form of the Dissociative Symptoms Scale  
  *(Waelde, Lynn, PhD; Macia, Kathryn, BS; Carlson, Eve, PhD; Anglin, Deidre, PhD; Palmieri, Patrick, PhD)*  
  (Assess Dx, Assess Dx, Clin Res, Adult, Industrialized)

## Daily Schedule
Friday, November 11, 10:15 a.m. – 11:30 a.m.
Concurrent Session Five

### Symposium Dallas A1

**Harnessing eHealth Technology to Improve Outcomes for PTSD Patients: A Public Health Approach to Treatment**

*Chair (**Wilson, Sarah, PhD**)*

*Discussant (**Beckham, Jean, PhD**)*

A Preliminary Investigation of a Relapse Prevention Mobile Phone-based Application to Maintain Smoking Abstinence among Individuals with Posttraumatic Stress Disorder

*(**Hicks, Terrell, BS**)*

(Clin Res, Clin Res, Pub Health, Sub/Abuse, Tech, Adult, Industrialized)

Reach, Adoption, and Implementation of a Web-based Alcohol Intervention for Veterans with Problem Drinking and PTSD

* (**Brief, Deborah, PhD; Enggasser, Justin, PhD; Helmuth, Eric, PhD; Rubin, Amy, PhD; Roy, Monica, PhD; Solhan, Marika, PhD; Schreiner, Amy, PhD; Heilman, Meagan, MA; Rosenbloom, David, PhD; Keane, Terence, PhD**)*

(Clin Res, Sub/Abuse, Tech, Mil/Vets, Adult, N/A)

Tailored Online Multiple Behavior Interventions Can Reduce Symptoms of PTSD in Veterans

* (**Jordan, Patricia, PhD**)*

(Res Meth, Anx, Depr, Tech, Mil/Vets, N/A, Industrialized)

Prolonged Exposure for Posttraumatic Stress Disorder: A Non-inferiority Trial of Treatment Delivered in Person versus Home-Based Telemedicine

* (**Gilmore, Amanda, PhD; Tuerk, Peter, PhD; Ruggiero, Kenneth, PhD; Acierno, Ron, PhD**)*

(Tech, Clin Res, Pub Health, Tech, Mil/Vets, Adult, N/A)

### Symposium Dallas A2

**Theoretical Predictors of the Effectiveness of Web Interventions for Trauma**

*Chair (**Yeager, Carolyn, PhD Student**)*

*Discussant (**Ruzek, Josef, PhD**)*

Understanding Engagement with a Trauma Recovery Web Intervention Using the Health Action Process Approach (HAPA) Framework

* (**Yeager, Carolyn, PhD Student; Benight, Charles, PhD**)*

(Tech, Clin Res, Pub Health, Adult, Industrialized)

Changes Self-appraisal and Mood Utilizing a Web-based Recovery System on Posttraumatic Stress Symptoms: A Laboratory Experiment

* (**Benight, Charles, PhD; Shoji, Kotaro, PhD; Yeager, Carolyn, PhD Student; Mullings, Austin, MA Student; Dhamija, Svati, MS, PhD Student; Boult, Terrance, PhD**)*

(Tech, Affect/Int, Clin Res, Pub Health, Adult, Industrialized)

Pre-treatment Difficulties and Resources as Predictors of Therapist Working Alliance in Online PTSD Treatment

* (**Littleton, Heather, PhD; Layh, Marlee, BS, BA; Decker, Melissa, MA PhD Student; Grills, Amie, PhD**)*

(Clin Res, Rape, Tech, Adult, Industrialized)
### Daily Schedule

**The Treatment of Co-occurring PTSD and Substance-related Disorders**

**Chair (Kehle-Forbes, Shannon, PhD)**

A Randomized Clinical Trial of Sequential Versus Integrated Treatment for Veterans with Co-occurring PTSD and Substance Use Disorders

*(Kehle-Forbes, Shannon, PhD; Drapkin, Michelle, PhD; Foa, Edna, PhD; Koffel, Erin, PhD; Polusny, Melissa, PhD; Van Horn, Deborah, PhD; Yusko, David, PsyD; Oslin, David, MD)*

(Clin Res, Sub/Abuse, Adult, Industrialized)

Integrated Treatment of PTSD and Addiction in Veterans Using Prolonged Exposure

*(Back, Sudie, PhD; Killeen, Therese, PhD, RN; Badour, Christal, MA, PhD Student; Flanagan, Julianne, PhD; Korte, Kristina, PhD; Brady, Kathleen, MD, PhD)*

(Clin Res, Sub/Abuse, Mil/Vets, Adult, N/A)

Role of Alcohol Use Disorder in PTSD Treatment Engagement among Treatment Seeking Veterans

*(Norman, Sonya, PhD; Myers, Ursula, MS, PhD Student; Angkaw, Abigail, PhD)*

(Clin Res, Sub/Abuse, Adult, Industrialized)

Concurrent Varenicline and Prolonged Exposure for Patients with Nicotine Dependence and PTSD: A Randomized Controlled Trial

*(Asnaani, Anu, PhD; Rosenfield, David, PhD; Zandberg, Laurie, PsyD; Gariti, Peter, PhD; Imms, Patricia, RN; Foa, Edna, PhD)*

(Clin Res, Health, Pub Health, Sub/Abuse, Adult, Industrialized)

#### Symposium San Antonio B

**Welcoming Adjustment Disorder to the Trauma and Stressor Related Disorders**

**Chair (O’Donnell, Meaghan, PhD)**

**Discussant (Creamer, Mark, PhD)**

Self-help Interventions for Adjustment Disorder: A Randomized Waiting-list Controlled Study

*(Maercker, Andreas, PhD, MD)*

(Clin Res, Pub Health, Adult, Global)

A Longitudinal Study of Adjustment Disorder after Trauma Exposure

*(O’Donnell, Meaghan, PhD; Nathan, Alkmemade, PhD; Creamer, Mark, PhD; McFarlane, Alexander, MD; Silove, Derrick, MD, PhD; Bryant, Richard, PhD; Felmingham, Kim, PhD; Steel, Zachary, PhD; Forbes, David, PhD)*

(Assess Dx, Acc/Inj, Adult, Industrialized)

New Revision of Adjustment Disorder in ICD-11: Factor Structure Study in Lithuania

*(Kazlauskas, Evaldas, PhD; Eimontas, Jonas, MA, PhD Student; Zelviene, Paulina, MA, PhD Student)*

(Assess Dx, Assess Dx, Global, Theory, Adult, Industrialized)

#### Panel Houston A

**An Analysis of Technology and Mobile Applications for Facilitating EMDR Treatment of PTSD with Dissociative Features**

*(Marotta-Walters, Sylvia, PhD, ABPP; Jain, Kshipra, PhD Student; Dinardo, Jeff, PhD Student; Friday, Amanda, PhD Student; Kaur, Preet, PhD Student)*

(Practice, Complex, Tech, Train/Ed/Dis, Prof, Industrialized)
## Daily Schedule

**Friday, November 11, 10:15 a.m. – 11:30 a.m.**

**Concurrent Session Five**

### Symposium Dallas A1

#### Mental and Physical Health Sequelae of Trauma: Data from General Population, Military and Veteran Cohorts

**Chair** (Gradus, Jaimie, ScD)  
**Discussant** (Galea, Sandra, MD, DrPH)

- The Longitudinal Sequelae of Stress Disorders in the Population of Denmark  
  *(Gradus, Jaimie, ScD; Körmendiné Farkas, Dóra, MSc; Svensson, Elisabeth, PhD; Lash, Timothy, Dsc; Toft Sørensen, Henrik, MD, PhD)*  
  *(Pub Health, Gender, Adult, Industrialized)*

- Psychiatric and Physical Health Morbidity Associated with Multiple Trauma Exposures in a U.S National Sample of Adolescents  
  *(Basu, Archana, PhD; Liu, Howard, PhD Candidate; McLaughlin, Katie, PhD; Stolbach, Bradley, PhD; Koenen, Karestan, PhD)*  
  *(Pub Health, Complex, Health, Illness, Child/Adol, Industrialized)*

- Short- and Long-term Longitudinal Outcomes of Military Deployment to the Iraq War: Findings from the Neurocognition Deployment Health Study  
  *(Vasterling, Jennifer, PhD; Proctor, Susan, Dsc; Aslan, Mihaela, PhD; Concato, John, MD, MPH)*  
  *(Pub Health, Mil/Vets, Adult, Industrialized)*

#### Symposium Dallas D1

#### Translational Perspectives on the Clinical Application of Oxytocin Among Individuals with PTSD

**Chair** (Flanagan, Julianne, PhD)  
**Discussant** (Olff, Miranda, PhD)

- Augmenting Prolonged Exposure Therapy for PTSD with Intranasal Oxytocin: Safety, Feasibility, and Acceptability  
  *(Flanagan, Julianne, PhD; Moran-Santa Maria, Megan, PhD; Messinger, Justin, BA; Back, Sudie, PhD)*  
  *(Clin Res, Cog/Int, Bio/Int, Adult, Industrialized)*

- Intranasal Oxytocin Administration as Early Preventive Intervention for PTSD: Efficacy and Prescriptive Factors  
  *(van Zuiden, Mirjam, PhD; Frijling, Jessie, MSc; Nawiën, Laura, MSc; Koch, Saskia, MSc; Bosch, Jos, PhD; Veitman, Dick, MD, PhD; Olff, Miranda, PhD)*  

- Childhood Trauma Alters the Effects of Oxytocin on Amygdala Reactivity to Fear in Individuals with PTSD  
  *(Moran-Santa Maria, Megan, PhD; Flanagan, Julianne, PhD; Back, Sudie, PhD; Joseph, Jane, PhD)*  
  *(Bio Med, CPA, Clin Res, Neuro, Adult, N/A)*

- Effects of Oxytocin on Stress Reactivity and Craving Among Veterans with Co-Occurring PTSD and Alcohol Use Disorders  
  *(Back, Sudie, PhD; Flanagan, Julianne, PhD; Moran-Santa Maria, Megan, PhD; Henschel, Aising, BS; Messinger, Justin, BA; Brady, Kathleen, MD, PhD; McGinty, Jacqueline, PhD)*  
  *(Clin Res, Bio/Int, Sub/Abuse, Mil/Vets, Adult, Industrialized)*
### Daily Schedule

**Friday, November 11, 4:15 p.m. – 5:30 p.m.**
### Concurrent Session Eight

#### Paper Session Houston B
**Intergenerational /Parenting Two Paper Session**  
**Moderator:** (Hiller, Rachel, PhD)

- **Prediction of Parental Psychopathology and Posttraumatic Growth from Resilience After a Child’s Admission to Intensive Care: a Longitudinal Study.**  
  (Rodriguez Rey, Rocio, PhD Candidate; Alonso-Tapia, Jesus, PhD; Colville, Gillian, PhD; Casanueva Mateos, Lidia, MD, PhD; Palacios, Alba, MD; Kassam-Adams, Nancy, PhD)  
  (Present, Anx, Assess Dx, Fam/Int, Illness, Adult, Industrialized)

- **Differential Sensitization of Parenting on Early Adolescent Cortisol: Moderation by Profiles of Maternal Child Abuse and Stress**  
  (Gamache Martin, Christina, MS, PhD Student; Kim, Hyoun, PhD; Fisher, Philip, PhD)  
  (Clin Res, Chronic, Fam/Int, Bio/Int, Lifespan, Industrialized)

- **The Course of Posttraumatic Stress Symptoms in Couples in Relation to Parental Emotions and Appraisal following Pediatric Burns**  
  (Egberts, Marthe, MSc; van de Schoot, Rens, PhD; Geenen, Rinie, PhD; Van Loey, Nancy, PhD)  
  (Clin Res, Acc/Inj, Affect/Int, Fam/Int, Adult, Industrialized)

- **Parental Responses to Child Trauma: The Role of Trauma Specific Behaviours and Parenting Style in Facilitating Child’s Psychological Adjustment**  
  (Hiller, Rachel, PhD; Halligan, Sarah, PhD; Meiser-Stedman, Richard, PhD; Lobo, Sarah, BS, MS; Creswell, Cathy, PhD; Fearon, Pasco, PhD)  
  (Clin Res, Acc/Inj, Acute, Comm/Int, Fam/Int, Child/Adol, Industrialized)

#### Paper Session Houston C
**Community Paper Session**  
**Moderator:** (Matteo, Rebecca, PhD)

- **Developing Trauma-informed Organizations and Systems: A Universal Measure of Organizational Trauma-informed Care**  
  (Guarino, Kathleen, LMHC)  
  (Pub Health, Commun, Comm/Int, Pub Health, Lifespan, Industrialized)

- **Dissemination of a Trauma-focused School-based Intervention Using a Performance Feedback Data System**  
  (Sapere, Heather, MA; Lang, Jason, PhD)  
  (Train/Ed/Dis, TechChild/Adol, Industrialized)

- **An Investigation of Psychological and Social Support Services within Regional Emergency and Disaster Preparedness and Planning: Organization, Competence and Collaboration amongst Key Agencies**  
  (Naslund, Monika, BBS, MPsy)  
  (Social, Comm/Int, Prevent, Prof, Industrialized)

- **What People with PTSD Symptoms Do (and Don’t) Know about PTSD: A National Survey**  
  (Matteo, Rebecca, PhD; Harik, Juliette, PhD; Hermann, Barbara, PhD; Hamblen, Jessica, PhD)  
  (Social, Practice, Comm/Int, Train/Ed/Dis, Mil/Vets, Adult, Industrialized)

### Symposium Dallas D1
#### Neural Advances in Posttraumatic Stress Disorder
**Chair (Liddell, Belinda, PhD)**

Structural Connectivity Analysis on Diffusion Spectrum Imaging Data Using Low Rank plus Sparse Decomposition for the Studies of Traumatic Brain Injury and Posttraumatic Stress Disorder  
*(Chen, Jingyun, PhD; Baete, Steven, PhD; Yau, Po Lai, PhD; Blessing, Esther, PhD, MD; Gonzalez, Bryan, BSc; Qian, Meng, PhD; Li, Meng, MSc; Abu-Amara, Duna, MPH; Boada, Fernando, PhD; Marmar, Charles, MD)*  
(Assess Dx, Neuro, Adult, N/A)  

Amygdala Down-Regulation Using Real Time fMRI in Posttraumatic Stress Disorder  
*(Nicholson, Andrew, BSc; Rabellino, Daniela, PhD; Paret, Christian, PhD; Densmore, Maria, BSc; Frewen, Paul, PhD; Schmahl, Christian, MD; Lanius, Ruth, MD, PhD)*  
(Bio Med, Bio/Int, Neuro, Adult, Industrialized)  

Neural Changes Associated with Increasing Self-efficacy in PTSD  
*(Brown, Adam, PhD; Titcombe, Roseann, MD PhD; Chen, Jingyun, PhD; Rahman, Nadia, BA; Bryant, Richard, PhD; Marmar, Charles, MD)*  
(Bio Med, Bio Med, Mil/Vets, Adult, Industrialized)  

Neural Correlates of Emotional Numbing and Dissociation Symptoms in Survivors of Torture  
*(Liddell, Belinda, PhD; Das, Pritha, PhD; Felmingham, Kim, PhD; Malhi, Gin, PhD; Nickerson, Angela, PhD; Askovic, Mirjana, BSc Hons Psychology; Aroche, Jorge, BBSc, MPych; Coello, Mariano, BBSc, MPych; Bryant, Richard, PhD)*  
(Bio Med, Chronic, Clin Res, Turtle, Neuro, Adult, Global)  

### Symposium Dallas D2
#### Addressing Self-conscious Emotions in Trauma Related Treatment with Military Veterans
**Chair (Capone, Christy, PhD)**

Discussant (Norman, Sonya, PhD)

Self-compassion Focused Treatment for Co-occurring PTSD and Substance Use Disorders in Veterans with Posttraumatic Guilt  
*(Eaton, Erica, PhD; Capone, Christy, PhD; Shea, M, Tracie, PhD)*  
(Clin Res, Health, Sub/Abuse, Mil/Vets, Adult, N/A)  

Guilt, Shame, and Anger as Mediators of the Relationship between Moral Injury and PTSD  
*(Bolton, Elisa, PhD; Jordan, Alexander, PhD; Eisen, Ethan, MPhil; Nash, William, MD; Litz, Brett, PhD)*  
(Clin Res, Clin Res, Complex, Dev/Int, Mil/Vets, Adult, Global)  

Acute Shame, Substance Use and Suicidal Ideation in Veterans  
*(Cameron, Amy, PhD)*  
(Practice, Complex, Grief, Mil/Vets, Adult, Industrialized)  

Moral Injury and the Justice-involved Veteran  
*(Gauthier, Justin, PhD; Cosden, Merith, PhD)*  
(Clin Res, Assess Dx, Mil/Vets, Theory, Adult, Industrialized)

Guides to Keyword Abbreviations located on pages 61 – 62. (Primary Keyword, Secondary Keywords, Population type, Presentation Level, Region)
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

Author Attended Poster Session One
Thursday, November 10
5:30 p.m. to 6:30 p.m.

Poster Organization
Each poster is scheduled for either Author Attended Poster Session One on Thursday, the Featured Poster Presentations at the Welcome Reception or Author Attended Poster Session Two on Friday and includes a time period when the presenting author is available to answer questions.

Posters are organized in the conference program by poster number on each day. The presenting author is bolded. A floor map showing the layout of posters is on page 117.

Key:
Poster # Number (Primary keyword, Secondary Keywords, Population type) Presentation Level – Region Keyword
type descriptions can be found on page 61.
Regions and Population Types can be found on page 62.
Presentation levels and descriptions can be found on page 62.

Session One: Thursday, November 10
Poster Setup: 8:00 a.m. – 10:30 a.m.
Poster Viewing: 10:30 a.m. – 5:30 p.m.
Author Attended Poster Session: 5:30 p.m. – 6:30 p.m.
Poster Dismantle: 6:30 p.m.

Poster Dismantle
Immediately following your scheduled poster session, display materials must be taken down and removed. Items not removed by the appointed poster dismantle time will be disposed of and are not the responsibility of ISTSS.

Access the Abstracts
Visit the ISTSS Website and download the Session Abstract Book and the Poster Abstract Book
Use the Itinerary Builder to plan your meeting
Download the meeting app

Student Poster Award Finalists

THU 101
(Clin Res, Affect/Int, Chronic, Practice, Complex, Child/Adol)
M - Industrialized
Premature Termination Factors among Children Receiving Trauma-Focused Treatment at a Child Advocacy Center
Steinzor, Cazzie, Wamser-Nanney, Rachel

THU 102
(Clin Res, Affect/Int, Complex, Civil/War, Child/Adol)
M - M East & N Africa
Resilience as a Predictive Factor of Therapeutic Change
Joachim, Brandon, D’Andrea, Wendy, Bergholz, Lou, Freed Steven

THU 103
(Clin Res, Bio Med, Prevent, Pub Health, Tech, Adult)
M - Industrialized
Role of Coping Self-efficacy on Parasympathetic Response to an Online Intervention
Devane, Amanda, Shojo, Kotaro, Boult, Terrance, Benight, Charles

THU 104
(Clin Res, Affect/Int, Clin Res, Practice, Adult)
I - Industrialized
Emotion Regulation as a Mechanism of Change in Group-Delivered Unified Protocol for Veterans Diagnosed with PTSD
Sherrill, Andrew, Varkovitzky, Ruth

THU 105
(Clin Res, Cul Div, Global, Civil/War, Adult)
M - S Asia
Reconsolidation Blockade (RB) for the Treatment of Torture Survivors: A Randomized Control Trial in Nepal
Descamps, Melanie, Kienzler, Hanna, Sharma, Bhogendra, Sapkota, Ram P., Pedersen, Duncan, Brunet, Alain

THU 106
(Clin Res, Assess Dx, Sub/Abuse, Adult)
I - Industrialized
Use of the AUDIT Screener in a Trauma-Exposed Sample: Comparing the Predictive Value of Phone and Computer Administration Techniques
Dutton, Courtney, Bujarski, Sarah, Lang, Katelyn, Bermudez, Andrea, Timmerman, Jesse, Feldner, Matthew
### Poster Session One Presentations

Poster Session One Presentations  
Thursday, November 10, Grand Hall 
5:30 p.m – 6:30 p.m.

Clinical/Intervention Research

**THU 119**  
(Clin Res, Affect/Int, Aggress, Child/Adol)  
M - Industrialized  
The Roles of Trauma Exposure, Callousness-Unemotional Traits, and Rejection Sensitivity in the Aggressive Behavior of Justice-Involved Youth: A Moderated Mediation Model  
*Mozley, Michaela,* Modrowski, Crosby, Kerig, Patricia

**THU 121**  
(Clin Res, Affect/Int, Cog/Int, Health, Mil/Vets, Child/Adol)  
M - N/A  
The Impact of Coping Self-Efficacy on Visual Intrusions after Trauma  
*Rahman, Nadia,* Horesh, Danny, Kapel, Rony, Bryant, Richard, Marmar, Charles, Brown, Adam

**THU 122**  
I - Industrialized  
An Exploration of the Relationship among Posttraumatic Stress Symptoms, Pain Catastrophizing, and Pain Symptoms in a Pediatric Amplified Pain Population  
*Weiss, Danielle,* Hildenbrand, Aimee, Kennedy, Traci, Miller, Kimberly, Sherker, Jennifer

**THU 123**  
(Clin Res, Clin Res, Cog/Int, Depr, QoL, Child/Adol)  
M - Industrialized  
The Effect of Trauma-Focused Cognitive Behavioral Therapy on Quality of Life of Children and Adolescents with Posttraumatic Stress Disorder: A Randomized-Control Trial  
*Pfeiffer, Elisa,* Sachser, Cedric, Tutus, Dunja, Goldbeck, Lutz

**THU 124**  
(Clin Res, Clin Res, Comm/Vio, Sub/Abuse, Gender, Child/Adol)  
M - Industrialized  
The Moderating Effect of Trauma Exposure on Alcohol Use and Academic Performance in College Students  
*Tomascak, Shannon,* Pugach, Cameron, Allwood, Maureen

**THU 125**  
(Clin Res, Assess Dx, Chronic, Practice, Dev/Int, Child/Adol)  
M - Industrialized  
Examination of the Interaction of Age and Placement Status as it Impacts Posttraumatic Stress Symptoms in a Sample of Polyvictimized Youth  
*Sprang, Ginny,* *Ascienzo, Sarah*

**THU 126**  
(Clin Res, Acc/Inj, Aggress, DV, Adult)  
I - N/A  
The Association between Emotion Regulation Difficulties and Attachment in Predicting Risk for Victimization among Female IPV Survivors  
*Hodges, Mikhaella,* Dadouch, Zena, Lilly, Michelle

**THU 128**  
(Clin Res, Acute, Affect/Int, Adult)  
I - N/A  
Positive Affect in the Daily Life of World Trade Center Responders with PTSD: No Evidence of Restriction  
*Dornbach-Bender, Allison,* Ruggero, Camilo, Liu, Keke, Shteynberg, Yuliya

**THU 129**  
(Clin Res, Affect/Int, Anx, Adult)  
I - Industrialized  
The Role of Rumination in Posttraumatic Stress Disorder  
*Connell, Nicholas,* Lacour, Alyssa, Daigle, Caitlin, McDermott, Michael

**THU 130**  
(Clin Res, Affect/Int, Chronic, Sub/Abuse, Gender, Adult)  
I - Industrialized  
The Role of Anger and Emotional Avoidance in the Relation between Child Emotional Abuse and Substance Use Problems in Adult Men  
*Kaufman, Julia,* Eshelman, Lee, Messman-Moore, Terri

**THU 131**  
(Clin Res, Affect/Int, Clin Res, Cog/Int, Adult)  
M - N/A  
Attentional Control, Emotion Regulation Strategies, and PTSD Symptomatology  
*Mercer, Mary* Catherine, London, Melissa, Lily, Michelle
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

**THU 132**
(Clin Res, Affect/Int, Cog/Int, Depr, Adult)
I - N/A
Reappraisal-focused Expressive Writing Reduces Experiential Avoidance and Depression Symptoms for Victims of Interpersonal Transgressions
*Warnke, Andrew, Pickett, Scott*

**THU 133**
(Clin Res, Affect/Int, Complex, QoL, Gender, Adult)
M - Industrialized
Know Pain, Know Gain: The Relationship between Trauma Exposure, Pain, and Self-regulation
*Doukas, Ashley, Schmidt, Andria, Gregory, Wesley, Litwin, Hillary, D'Andrea, Wendy*

**THU 134**
(Clin Res, Affect/Int, Practice, Cog/Int, Theory, Adult)
M - Industrialized
A Trauma Analogue Study Investigating the Role of Attentional Shifting in the Effectiveness of Emotion Regulation Strategies
*London, Melissa, Mercer, Mary Catherine, Alderks, Adelaide, Gustafson, Holly, Lilly, Michelle*

**THU 135**
(Clin Res, Aggress, Rape, Gender, Adult)
I - Industrialized
The Moderating Impact of Masculinity on Men’s Anger and Risky Sexual Behavior after Rape
*Eshelman, Lee, Messman-Moore, Terri*

**THU 136**
(Clin Res, Aggress, Anx, Depr, Adult)
M - Industrialized
Validating the Seven-factor Hybrid Model of PTSD: Differential Associations with External Correlates
*Kramer, Lindsay, Dieujuste, Nathalie, Silverstein, Madison, Lee, Daniel, Weathers, Frank*

**THU 138**
(Clin Res, Clin Res, Comm/Int, Cul Div, Adult)
- Industrialized
Evidence-based Practices in Traumatized Individuals Suffering from Severe Mental Illness and Diverted from Jail
*Galovski, Tara, Gloth, Chelsea, Chappuis, Courtney*

**THU 140**
(Clin Res, Anx, CPA, CSA, Theory, Adult)
M - N/A
Anxiety Sensitivity and Dissociation: A Structural Equation Model Predicting Dispositional Traits and Adult PTSD Symptom Severity from Childhood Trauma across Developmental Stages and Parental Bonding
*Yetzer, Andrea, Colon, Lisa, Taylor, Jerika, Pyszczynski, Tom, Lac, Andrew*

**THU 141**
(Clin Res, Anx, CSA, Adult)
I - Industrialized
Parenting Childhood Victims of Sexual Abuse: A Comparative Study of Mothers with and without Histories as Victims
*Kaplan, Talia, Yasik, Anastasia, Popiel, Maryann, Maynor, Whitney, Salbod, Stephen, Velayo, Richard, Baker, Christine*

**THU 143**
(Clin Res, Assess Dx, Pub Health, Res Meth, Adult)
M - Latin Amer & Carib
Prevalence Analysis of Traumatic Stress Disorder, Related Events and the Identification of a Symptomatic Triad in a Clinical Sample from Chile
*Salgado, Carolina, Bravo, Patricia, Iribarren, Carla, Fuentes, Gabriel, Duque, Gloria*

**THU 144**
(Clin Res, Assess Dx, Sleep, Theory, Adult)
M - Industrialized
The Predictive Power of Sleep Complaints and Mindfulness for Dissociative Experiences
*Malaktaris, Anne, Lynn, Steven*

**THU 145**
(Clin Res, Chronic, Practice, Cog/Int, Adult)
M - Industrialized
The Temporal Relationship between Coping Self-Efficacy and Dissociation in Undergraduate Students
*Mahoney, Colin, Melville, Erin, Benight, Charles*

**THU 146**
(Clin Res, Chronic, Depr, Health, Gender, Adult)
I - N/A
The Role of Current and Past Intimate Partner Violence on Depression Among Women
*Jamison, Lacy, Howell, Kathryn, Thurston, Idia, Schwartz, Laura, Decker, Kristina*
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

THU 147
(Clin Res, Chronic, DV, Health, QoL, Adult)
I - Global

Mental and Physical Health Trajectories after Leaving an Abusive Partner: A Systematic Review
Szabo, Yvette, Newton, Tamara, Patton, Samantha

THU 148
(Clin Res, Chronic, DV, Pub Health, Adult)
M - Industrialized

Does Problem-solving Orientation Impact the Relationship between Posttraumatic Cognitions and PTSD?
Doddson, Thomas, Tran, Han, Woodward, Matthew, Pickover, Alison, Lipinski, Alexandra, Beck, J Gayle

THU 149
(Clin Res, Clin Res, Commun, DV, Gender, Adult)
I - Industrialized

Cognitive Processing Therapy among Survivors of Intimate Partner Violence: Baseline Characteristics and Study Completion in a Novel Population
Gallegos, Autumn, Pigeon, Wilfred, Cerulli, Catherine, Heffner, Kathi

THU 150
(Clin Res, Clin Res, Comm/Vio, Health, Gender, Adult)
I - N/A

The Effects of Race, Gender, and Important Clinical Correlates on PTSD Symptom Clusters in Community Members following Ferguson Protests
Medoff, Nina, Taverna, Emily, Peterson, Zoe, Galovski, Tara

THU 151
(Clin Res, Clin Res, QoL, Prevent, Gender, Adult)
M - Industrialized

Effects of a Flexible TF-CBT on PTSD and Quality of Life among Individuals with PTSD and Concomitant Problems
Guay, Stéphane, Fortin, Christophe, Fortin, Maxime

THU 153
(Clin Res, Cog/Int, Gender, Adult)
- Industrialized

Roles of Dysregulated Anger on Outcomes and Therapeutic Processes in Cognitive Processing Therapy
Mackintosh, Margaret-Anne, Willis, Emy, Sweeney, Margaret-Mary, Morland, Leslie

THU 154
(Clin Res, Clin Res, QoL, Adult)
- Industrialized

Predictors of Quality of Life Outcomes Following Cognitive Processing Therapy for Female Trauma Survivors
Wells, Stephanie, Herzberg Purdy, Kristin, Grubbs, Kathleen, Wickramasinghe, Induni, Morland, Leslie, Mackintosh, Margaret-Anne

THU 155
(Clin Res, DV, QoL, Rape, Gender, Adult)
- Industrialized

Predictors of Improved Sexual Functioning Following Cognitive Processing Therapy for Women Enrolled in a Randomized Controlled Trial
Tunze, Chloe, Chatfield, Miranda, Sohn, Min Ji, Wells, Stephanie, Mackintosh, Margaret-Anne, Morland, Leslie

THU 156
(Clin Res, Clin Res, Health, Sub/Abuse, Tech, Adult)
M - Industrialized

Mobile Technology May Improve Smoking Cessation Treatment Retention in Veteran Smokers with PTSD: An Open Pilot Study
Herbst, Ellen, Kuhn, Eric, McCaslin, Shannon, Dickter, Benjamin, Jones, Megan, Pennington, David

THU 157
(Clin Res, Clin Res, Sub/Abuse, Adult)
M - Industrialized

A Review of the Therapeutic Potential of Cannabinoids for PTSD
Babson, Kimberly, Loflin, Mallory, Bonn-Miller, Marcel

THU 158
(Clin Res, Clin Res, Illness, Rape, Adult)
M - Industrialized

Restoring Emotional, Sexual, and Physical Empowerment through CBT & Trauma-sensitive Care (RESPECT): A Chronic Pelvic Pain Intervention
Tirone, Vanessa, Hobfoll, Stevan, Dugan, Sheila

THU 159
(Clin Res, Affect/Int, Practice, Cog/Int, Adult)
A - Industrialized

The Relationship between Regulative Distress Tolerance, Counterfactual Ruminative Thinking, and PTSD Symptom Clusters
Claycomb, Meredith, Contractor, Ateka, Mitchell, Melissa, Dranger, Paula, Elhai, Jon

False Safety Behavior Elimination Treatment Group for Posttraumatic Stress Disorder

*Raines, Amanda, Vidaauri, Desiree, Walton, Jessica, Franklin, C, McPhillips, Kaitlyn, Uddo, Madeline, Schmidt, Norman*
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

**THU 199**
(Clin Res, Clin Res, Practice, Mil/Vets, Adult)
I - N/A

Exploring Emotion Regulation Difficulties and PTSD in Military Veterans
**Chase, Tannah**, Stanley, Melinda, Barrera, Terri, Exline, Julie, Pargament, Kenneth, Teng, Ellen

**THU 200**
(Clin Res, Bio Med, Sleep, Mil/Vets, Adult)
A - Industrialized

Low-Dose Sublingual Cyclobenzaprine (TNX-102 SL) in Military-related PTSD: Results of a Randomized, Placebo-controlled Multicenter Trial
**Sullivan, Gregory**, Gendreau, Judy, Gendreau, R. Michael, Jividen, Heather, Daugherty, Bruce, Lederman, Seth

**THU 201**
(Clin Res, Comm/Int, Mil/Vets, Adult)
I - Industrialized

The Role of Self-stigma and Self-forgiveness in Mental Health Service Utilization among Returning Veterans
**Carroll, Timothy**, Currier, Joseph

**THU 202**
(Clin Res, Mil/Vets, Adult)
- Industrialized

Assessing the Unique Role of Spiritual Struggles in Risk for Suicidal Behavior in U.S. Military Veterans
**Currier, Joseph**

**THU 203**
(Clin Res, Cog/Int, Theory, Adult)
- Industrialized

Appraisals of Meaning and Meaning Making Processes after Trauma Predict Spiritual Wellbeing and Trauma-Related Distress
**Park, Crystal**

**THU 204**
(Clin Res, Illness, QoL, Lifespan)
I - Industrialized

Post-Traumatic Growth in Adolescent and Young Adult Cancer Survivors: Real Change, Proxy or Coping?
**Cho, Dalnim**, Park, Crystal

**THU 205**
(Clin Res, CPA, Chronic, Health, Res Meth, Lifespan)
A - Industrialized

Childhood Maltreatment and Borderline Personality Traits in Young Adults: A Type and Timing Specific Analysis
**Khan, Alaptagin**, McCormack, Hannah, Bolger, Elizabeth, McGreenery, Cynthia, Polcari, Ann, Teicher, Martin

**THU 206**
(Clin Res, Clin Res, DV, Gender, Lifespan)
M - Industrialized

The Trajectory of Mental Health among Mothers and Children who Exposed to Intimate Partner Violence: Prospective Longitudinal Study
**Kamo, Toshiko**, Kim, Yoshiharu, Ito, Madoka, Ujiie, Yuri, Nakayama, Michi

**THU 209**
(Clin Res, Fam/Int, Mil/Vets, Adult)
- Industrialized

The Contribution of Wives’ Support to the Adjustment of Military Veterans
**Dekel, Rachel**, Siegel, Alana, Fridkin, Shimon, Svetlitzky, Vlad

**THU 210**
(Clin Res, Depr, Sleep, Gender, Adult)
- Industrialized

Sleep Quality Accounts for Some of the Association between Service Members’ PTSD Symptoms and Partners’ Depression
**Summers, Chris**, Carter, Sarah, Renshaw, Keith, Allen, Elizabeth
**Poster Session One Presentations**  
**Thursday, November 10, Grand Hall**  
**5:30 p.m – 6:30 p.m.**

**THU 211**  
(Clin Res, Fam/Int, Mil/Vets, Lifespan)  
**Intergenerational Memories of War and Mental Health Issues in US Military Couples**  
*Presenting Author is Bolded*  
Brown, Adam, Ferguson, Kim, Parnes, McKenna, Hirst, William

**THU 212**  
(Clin Res, Fam/Int, Mil/Vets, Lifespan)  
**Trauma Centrality as a Mechanism for the Transmission of Mental Health Issues in US Military Families**  
*Presenting Author is Bolded*  
Brown, Adam, Ferguson, Kim, Parnes, McKenna, Hirst, William

**THU 213**  
(Clin Res, Mil/Vets, Adult)  
**Theistic Belief, Meaning Making, and Post Traumatic Growth: A Mediational Analysis**  
*Presenting Author is Bolded*  
Slagel, Brett, McCormick, Wesley, Currier, Joseph

**THU 214**  
(Clin Res, Res Meth, Mil/Vets, Theory, Veterans)  
**Reaching Constructive Posttraumatic Growth: The Role of Social Support for Military Veterans**  
*Presenting Author is Bolded*  
Saltzman, Leia, Pat-Horenczyk, Ruth, Lombe, Margaret, McNamara, Tay, Takeuchi, David

**THU 215**  
(Clin Res, Clin Res, Mil/Vets, Prof)  
**An Outcome Data System to Guide EBT Interventions**  
*Presenting Author is Bolded*  
Allen, Steven, Mullin, Thomas, Ahern, Dennis

**THU 216**  
(Clin Res, Practice, Sub/Abuse, Prof)  
**Treating Co-occurring PTSD and Substance Use in Adolescents: Service Provider Perspectives from Australia and the US**  
*Presenting Author is Bolded*  
Barrett, Emma, Adams, Zachary, Mills, Katherine, Back, Sudie

**Technology**

**THU 217**  
(Tech, Practice, Media, Adult)  
**Collaborative Management of PTSD Treatment through Smartphone Apps: What is Available and Accessible?**  
*Presenting Author is Bolded*  
Brown, Elaine, Benzer, Justin, Creech, Suzannah, Kum, Hye-Chung, Sasangohar, Farzan

**THU 218**  
(Tech, Practice, Adult)  
**Veteran Feedback on Between-session Practice Using a Smartphone App**  
*Presenting Author is Bolded*  
Grubbs, Kathleen, Conover, Kate, Kloezeman, Karen, Savage, Ulysses, Mackintosh, Margaret-Anne

**THU 219**  
(Tech, Clin Res, Practice, Prof)  
**Influence of Trauma-focused Video Game on Graduate Students’ Perceptions of Trauma and Gameplay in Treatment Settings**  
*Presenting Author is Bolded*  
Kramer, Samantha, Levy, Rafael, Mangino, Michael, Demaria, Thomas
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

Training/Education/ Dissemination

**THU 222**
(Train/Ed/Dis, Chronic, Complex, Train/Ed/Dis, Child/Adol)
M - Industrialized

**Building and Sustaining Evidence-Informed Practice: Findings from a Nationwide Survey on the Attachment, Regulation, and Competency (ARC) Framework**
Neubacher, Katrin, Blaustein, Margaret

**THU 223**
(Train/Ed/Dis, Mil/Vets, Adult)
M - Industrialized

**Increased Utilization of PE and CPT Over Time: A Case Example from a Large VAMC PTSD Clinic**
Hundt, Natalie, Thompson, Karin, Barrera, Terri, Miles, Shannon, Cully, Jeffrey

**THU 224**
(Train/Ed/Dis, Anx, Cog/Int, Comm/Vio, Adult)
A - Latin Amer & Carib

**Posttraumatic Stress Disorder and Academic Performance in a Population of University Students**
Pereira, Juliana, Netto, Liana, Cavalcanti-Ribeiro, Patricia, Koenen, Karestan, Sampaio, Aline S., Quarantini, Lucas

**THU 225**
(Train/Ed/Dis, Cog/Int, Prevent, Adult)
M - Industrialized

**Using Research Results about Predictors of PTSD to Reduce Stigma and Increase the Public’s Knowledge of PTSD**
Reiland, Sarah

**THU 226**
(Train/Ed/Dis, CPA, Clin Res, Practice, Prof)
I - N/A

**Clinicians’ Knowledge of, Training in, and Utilization of Evidence-based Treatments for Child Maltreatment, and Barriers to Training and Utilization: A Mixed Methods Study**
McCarthy, Katherine, Samuelsion, Kristin

**THU 227**
(Train/Ed/Dis, Ethics, Self-Care, Prof)
M - N/A

**A Trauma Competency Self-evaluation Tool: Integrating the New Haven Trauma Competencies into Clinical Training**
Orliss, Micah, Long, Richelle

Assessment/Diagnosis

**THU 228**
(Train/Ed/Dis, CPA, Clin Res, Fam/Int, Intergen, Prof)
M - Industrialized

**Integrating Technology Into A Learning Collaborative to Disseminate and Help Implement a Trauma-informed Intervention to Prevent Child Maltreatment: GABI (GABI®) and the UDEMY platform**
Armusewicz, Kelsey, Hoffmann, Sophia, Murphy, Anne

**THU 229**
(Assess Dx, Assess Dx, CPA, CSA, Clin Res, Child/Adol)
M - Industrialized

**Screening PTSD with the CPSS-5 and Addressing Barriers to Assessment and Care**
Tannahill, Hallie, Asnaani, Anu, Zang, Yinyin, Foa, Edna

**THU 230**
(Assess Dx, CPA, CSA, Clin Res, Fam/Int, Child/Adol)
M - Industrialized

**Developing Culturally and Trauma Competent Mental Health Graduate Students: Case Study in Latina America**
Wycoff, Kirby

**THU 231**
(Assess Dx, Affect/Int, Depr, Child/Adol)
I - Industrialized

**Examining the Role of Childhood Trauma on Negative Affect in a Recently Hospitalized Adolescent Population**
Brier, Zoe, Marraccini, Marisa, Brick, Leslie, Nugent, Nicole

**THU 234**
(Assess Dx, Acc/Inj, Acute, Assess Dx, Adult)
M - Industrialized

**Inconsistencies in the Reporting of Trauma Exposure Characteristics among Acute Physical Injury Survivors**
Larsen, Sadie, Pacella, Maria, Garfin, Dana, Hunt, Josh, Mota, Natalie, deRoon-Cassini, Terri
**Poster Session One Presentations**  
**Thursday, November 10, Grand Hall**  
**5:30 p.m – 6:30 p.m.**

| THU 235 | (Assess Dx, Bio Med, Depr, Genetic, Adult)  
|---------|-----------------------------------------------  
| M - Industrialized  
Serotonin Transporter and Oxytocin Receptor Together Moderate the Association between Depression Severity and Perceived Limitations in Community Reintegration Ratings

Determinants of Mental Health and Resilience in an Internally-displaced Population in Northern Sri Lanka  
Thomas, Fiona, McShane, Kelly, Siriwardhana, Chesarl |
Poster Session One Presentations
Thursday, November 10, Grand Hall
5:30 p.m – 6:30 p.m.

THU 248
(Assess Dx, Cog/Int, Mil/Vets, Adult)
M - Industrialized

The Relationship between Cognitive Functioning, Trauma Centrality, and PTSD in Male OEF/OIF veterans
Hart, Roland, Rahman, Nadia, Bagrodia, Rohini, Kouri, Nicole, Marmar, Charles, Brown, Adam

THU 249
(Assess Dx, Aggress, Sub/Abuse, Mil/Vets, Adult)
M - Industrialized

Cognitive Deficits Associated with Disinhibition among OIF/OEF Veterans with PTSD
Hart, Roland, Newman, Jennifer, Marmar, Charles, Etkin, Amit

THU 251
(Assess Dx, OoL, Mil/Vets, Adult)
I - Industrialized

Reintegration Stress and Guilt among Veterans Pursuing PTSD Treatment
Siegel, Emma, Myers, Ursula, Haller, Moira, Angkaw, Abigail, Norman, Sonya

THU 252
(Assess Dx, Mil/Vets, Gender, Adult)
M - Industrialized

Assessing the Wartime Experiences of Vietnam-Era Women: The Health of Vietnam-Era Women’s Study (HealthViEWS)
Sternke, Lisa Marie, Serpi, Tracey, Spiro III, Avron, Kimerling, Rachel, Kilbourne, Amy, Magruder, Kathryn

THU 253
(Assess Dx, Clin Res, Mil/Vets, Adult)
I - Industrialized

Influence of Trauma Type on Presentation of Self-Blame, Shame, and Guilt
McManus, Eliza, Vidaurri, Desirae, Vaught, Amanda, Cuccurullo, Lisa Ann, Walton, Jessica, Franklin, C

THU 254
(Assess Dx, Fam/Int, Lifespan)
I - Industrialized

Parent vs. Self-Report of Emotion Regulation Difficulties in Adolescents with Trauma Histories: A Concurrent Validity Study
Bottera, Angelina, Jacoby, Vanessa, Scotti, Joseph, Krackow, Elisa

THU 255
(Assess Dx, Practice, Global, Pub Health, Care, Child/Adol)
- N/A

International Development and Validation of the Child and Adolescent Trauma Screening Questionnaire (CATS)
Sachser, Cedric, Berliner, Lucy, Holt, Tonje, Jensen, Tine, Jungbluth, Nathaniel, Risch, Elizabeth, Rosner, Rita, Goldbeck, Lutz

Clinical Practice

THU 256
(Assess Dx, Anx, Clin Res, Gender, Adult)
M - N/A

A Prospective Study of Help-seeking among Female Survivors of a Campus Shooting
Boykin, Derrecka, Pinciotti, Caitlin, Miller, Lindsay, Himmerich, Sara, Orcutt, Holly

THU 257
(Assess Dx, Comm/Int, Train/Ed/Dis, Adult)
I - Latin Amer & Carib

Results from Social Clinic For Trauma Victims Care, Based on Somatic Experiencing Intervention in Bahia, Brazil
Netto, Liana, Passos, Solana

THU 258
(Assess Dx, Clin Res, Health, Rape, Gender, Adult)
- Industrialized

Perceptions of VHA Care among Veterans Exposed to Military Sexual Trauma
Monteith, Lindsey, Dorsey Holliman, Brooke, Matarazzo, Bridget, Soberay, Kelly, Gerber, Holly, Bahrani, Nazanin

THU 259
(Assess Dx, Acc/Inj, Clin Res, Tech, Mil/Vets, Adult)
- Industrialized

Factors Impacting Treatment Retention in an Online Chronic Pain Management Program for Military and Veterans
Holens, Pamela

THU 260
(Clin Res, Practice, Mil/Vets, Adult)
- Industrialized

Predictors of Mental Health Utilization and Psychotherapy after Initial PTSD Diagnosis in a National Sample of Iraq and Afghanistan Veterans
Smith, Noelle, Tsai, Jack, Pietrzak, Robert, Cook, Joan, Hoff, Rani, Harpaz-Rotem, Ilan
Poster Session One Presentations  
Thursday, November 10, Grand Hall  
5:30 p.m – 6:30 p.m.

**THU 261**  
(Practice, Complex, QoL, Terror, Adult)  
M - industrialized  

*What Do People Victim Of Terrorism Understand For Psychological Well-being?*  

**THU 262**  
(Practice, Assess Dx, Complex, Terror, Adult)  
M - Industrialized  

*Postraumatic Stress Symtomatology and Psychological Well-being in People Affected by the March 11 Attacks*  
Vázquez, Carmelo, Rodriguez, Manuel, Crespo, Maria, Gómez-Gutiérrez, M. Mar, Hervás, Gonzalo, *Marin, Carolina*

**THU 263**  
(Practice, Commun, Cul Div, DV, QoL, Adult)  
I - N/A  

*Bilingual Intensive Case Management Services for Hispanic Victims of Interpersonal Violence alongside Mental Health Programs*  
Eilers, Olivia, Shealy, Kristen, Gomez, Martha, Davidson, Tatiana, Rheingold, Alyssa, de Arellano, Michael

**THU 264**  
(Practice, Practice, Commun, Cul Div, DV, Adult)  
M - N/A  

*Increasing Access to Mental Healthcare for Hispanic Victims of Interpersonal Violence*  
Eilers, Olivia, Shealy, Kristen, Gomez, Martha, Davidson, Tatiana, Rheingold, Alyssa, de Arellano, Michael

**THU 265**  
(Practice, Clin Res, Mil/Vets, Adult)  
I - Industrialized  

*Initial Results from a U.S. Army Intensive Outpatient Program for PTSD: Comparing Groups With and Without Additional Coping Skills Training*  
Hoyt, Tim, Barry, David, *Edwards-Stewart, Amanda*

**THU 266**  
(Practice, Health, Sub/Abuse, Adult)  
M - Industrialized  

*The Influence of Trauma History and Transcendence on Motivation for Substance Use in Undergraduates*  
Hurless, Nicole, Weaver, Terri

**THU 267**  
(Practice, Commun, Complex, Sub/Abuse, Adult)  
M - N/A  

*Seeking Safety Therapy: Implementation for People with SMI, PTSD, and Substance Use Disorders*  
Najavits, Lisa, *Schmitz, Martha*

**THU 268**  
(Practice, CSA, Chronic, Complex, Rape, Adult)  
M - N/A  

*Culturally-Tailored Treatment for Hispanic Victims of Interpersonal Violence Using Group Cognitive Processing Therapy in a Community-based Setting*  
Shealy, Kristen, Gomez, Martha, Eilers, Olivia, Davidson, Tatiana, *Rheingold, Alyssa*, de Arellano, Michael

**THU 269**  
(Practice, Acc/Inj, Acute, Illness, Lifespan)  
M - Industrialized  

*Young Children’s Acute Stress after Burn Injury: Disentangling the Role of Injury Severity and Parental Stress Reactions*  
Haag, Ann-Christin, *Landolt, Markus*

**Biological/Medical**

**THU 270**  
(Bio Med, Acute, Chronic, Bio/Int, Child/Adol)  
I - Industrialized  

*Blunted Psychophysiological Reactivity in Children with PTSD*  
Lipschutz, Rebecca, Glackin, Erin, Scheeringa, Michael

**THU 271**  
(Bio Med, Acc/Inj, Adult)  
A - N/A  

*Evaluative Conditioning in the Long-term after Severe Accidental Injury*  
Oe, Misari, Schnyder, Ulrich, Mueller-Pfeiffer, Christoph, Wilhelm, Frank, Martin-Soelich, Chantal

**THU 272**  
(Bio Med, Clin Res, Illness, Adult)  
I - Industrialized  

*Basal Dopamine Levels Associated with the Decrease in HIV-PTSD Symptoms*  
Junglen, Angela, Delahanty, Douglas, Boarts, Jessica, Garcia, Monica, Wise, Anna
### Poster Session One Presentations

Welcome Reception with SIG Endorsed Posters
Thursday, November 10
6:30 p.m. to 8:00 p.m.

Poster Organization
Each poster is scheduled for either Author Attended Poster Session One on Thursday, the Featured Poster Presentations at the Welcome Reception, or Author Attended Poster Session Two on Friday, and includes a one-hour time period when the presenting author is available to answer questions.

Posters are organized in the conference program by poster number on each day. The presenting author is bolded. A floor map showing the layout of posters is available on page 138.

Key:
Poster # Number (Primary keyword, Secondary Keywords, Population type) Presentation Level – Region Keyword
type descriptions can be found on page 61.

Regions and Population Types can be found on page 62.

Presentation levels and descriptions can be found on page 62.

Welcome Reception with SIG Endorsed Posters:
Thursday, November 10
Poster Setup:     5:30 p.m. – 6:30 p.m.
Author Attended Poster Session:  6:30 p.m. – 7:15 p.m.
Poster Dismantle:   8:00 p.m.

Poster Dismantle
Immediately following your scheduled poster session, display materials must be taken down and removed. Items not removed by the appointed poster dismantle time will be disposed of and are not the responsibility of ISTSS.

I - Industrialized

Do Trauma Survivors Experience Shame after Fear? An Experimental Examination
_La Bash, Heidi_, Papa, Anthony

**WR 117**
(Clin Res, Affect/Int, Clin Res, Cog/Int, Adult)
M - Industrialized

A Randomized Controlled Trial of Narrative Reconstruction (NR) for PTSD
_Gofman, Mordechai, Kivity, Yogev, Vidan, Zohar, Peri, Tuvia_

**WR 118**
(Clin Res, Affect/Int, Cog/Int, Theory, Adult)
M - Industrialized

Changes in Trauma Narratives following Narrative Reconstruction Psychotherapy and their Relationship with Changes in PTSD Symptoms – A Controlled Trial
_Vidan, Zohar, Gofman, Mordechai, Tuval-Mashiach, Rivka, Peri, Tuvia_

**WR 119**
(Tech, Clin Res, Prevent, Pub Health, Train/Ed/Dis, Adult)
M - Industrialized

The Role of Cognitive Appraisals on the Effectiveness of a Trauma Recovery Web Intervention for Reducing Symptoms of Posttraumatic Distress
_Yeager, Carolyn_, Benight, Charles

Theory and Traumatic Stress Studies SIG

**WR 121**
(Practice, Clin Res, Cog/Int, Tech, Terror, Adult)
I - N/A

Improvements in Mental and Behavioral Disengagement during DCS-Enhanced Virtual Reality Exposure Therapy for PTSD
_Hunnicutt-Ferguson, Kallio_, Wyka, Katarzyna, Peskin, Melissa, Cukor, Judith, Difede, JoAnn

Research Methodology SIG

**WR 122**
(Clin Res, Assess Dx, Res Meth, Adult)
M - Industrialized

Network Analysis of PTSD Symptoms in College Students: An Examination of Key Symptoms
_Eddinger, Jasmine_, McDevitt-Murphy, Meghan, Luciano, Matthew, Bellet, Benjamin

**WR 123**
(Clin Res, Res Meth, Tech, Adult)
M - Industrialized

Analysis of PTSD Prevalence and Factor Structure in a Trauma-exposed MTurk Sample
_van Stolk-Cooke, Katherine_, Price, Matthew

Trauma and Substance Use Disorders SIG

**WR 124**
(CulDiv, Comm/Int, Cul Div, Sub/Abuse, Intergen, Lifespan)
M - N/A

Applying an Ecological Framework to Understand the Mechanisms Underlying the Effects of the Intergenerational Transmission of Trauma on the Substance Using Behavior of Black Emerging Adults
_Pittman, Delishia_, _Kaur, Preet_

**WR 125**
(Clin Res, Sub/Abuse, Mil/Vets, Adult)
I - Industrialized

Posttraumatic Stress Disorder Symptoms Improve After a Brief Alcohol Intervention for OEF/OIF/OND Veterans
_Luciano, Matthew_, McDevitt-Murphy, Meghan

Terrorism & Bioterrorism Related Trauma SIG

**WR 120**
(Practice, Anx, Complex, Tech, Terror, Adult)
I - N/A

Stories Behind the Screen: A Pilot Study of Internet-based, Therapist-assisted CBT in World Trade Center Responders
_Greene, Andrea_, Cahn, Leah, Cancelmo, Leo, Katz, Craig, Pietrzak, Robert, Feder, Adriana
Welcome Reception with SIG Endorsed Posters
Thursday, November 10
6:30 p.m. – 8:00 p.m.

Trauma Assessment & Diagnosis SIG

WR 126
(Assess Dx, Assess Dx, Adult)
M - Industrialized

Less is More? Assessing the Validity of the ICD-11 Model of PTSD across Multiple Trauma Samples
Hansen, Maj, Hyland, Philip, Armour, Cherie, Shevlin, Mark, Elklit, Ask

WR 127
(Assess Dx, Agress, Assess Dx, Res Meth, Theory, Adult)
M - Industrialized

Development of the Posttraumatic Anger Scale
Sullivan, Connor, Jones, Russell

Traumatic Loss and Grief SIG

WR 128
(Clin Res, Affect/Int, Death, Dev/Int, Theory, Adult)
I - Industrialized

Variations in Engagement Coping Based on Type of Traumatic Experience
Hasselle, Amanda, Howell, Kathryn, Schwartz, Laura, Dormois, Madeline

Poster Session Two Presentations
Friday, November 11, Grand Hall
5:30 p.m – 6:30 p.m.

FRI 140
(Clin Res, Clin Res, Depr, Prevent, Adult)
I - Industrialized

Negative Cognitions and Depression in Treatment-Seeking Recent Trauma Survivors
McCleary, Harry, Omofuma, Yimi, Detweiler, Laura, Vanden Bussche, Alicia

FRI 141
(Clin Res, Clin Res, Health, Pub Health, Adult)
M - N/A

The Impact of Trauma History on Stress Recovery Patterns Following a Music Intervention
Weaver, Terri, Kelton, Katherine, Santowski, Anna, Buchanan, Tony, Kaufman, David

FRI 142
(Clin Res, Clin Res, Health, Pub Health, Care, Adult)
I - Industrialized

PTSD Treatment Modality Preference in an Online Sample: Stated Reasons for Choice of Pharmacotherapy, Prolonged Exposure Therapy, or Cognitive Processing Therapy
Sharma, Shankari, Roth, Maya, Gifford, Shannon, Monson, Candice

FRI 143
(Clin Res, Clin Res, Practice, Cul Div, Adult)
I - N/A

Religious and Spiritual Struggles In Veterans with PTSD
Teng, Ellen, Chase, Tannah, Barrera, Terri, Stanley, Melinda, Exline, Julie, Pargament, Kenneth

FRI 144
(Clin Res, Clin Res, Cog/Int, Adult)
I - Industrialized

Updating Non-Trauma Associative Memories in Posttraumatic Stress Disorder
Sachschal, Juliane, Woodward, Elizabeth, Ehlers, Anke

FRI 146
(Clin Res, Clin Res, Cog/Int, Terror, Adult)
M - Industrialized

The Relationship between Increased Self-Worth and Posttraumatic Stress Disorder (PTSD) Symptom Improvement during Virtual Reality Exposure Therapy with a Cognitive Enhancer
Peskin, Melissa, Wyka, Katarzyna, Cukor, Judith, Altemus, Margaret, Lee, Francis, Difede, JoAnn

FRI 147
(Clin Res, Acute, Practice, Cog/Int, Death, Adult)
I - Industrialized

Exploration of Blame, Responsibility, and Guilt in Suicide Loss Survivors
Egbert, Rachel, Iwanciw, Stefanie, Chiriboga, Eva, Demaria, Thomas

FRI 148
(Clin Res, Practice, Death, Grief, Adult)
I - Industrialized

Suicidal Bereavement: Is it Traumatic Grief?
Iwanciw, Stefanie, Egbert, Rachel, Chiriboga, Eva, Demaria, Thomas

FRI 151
(Clin Res, Cog/Int, DV, Health, Gender, Adult)
I - Industrialized

Aspects of Social Support, Self-Blame, and PTSD: A Mediation Model in Female and Male Sexual Assault Survivors
Allen, Christy, Lilly, Michelle

FRI 152
(Clin Res, Cog/Int, Rape, Gender, Adult)
M - Industrialized

Intimate Partner Violence, Mental Health, and Occupational Functioning Among OEF/OIF Veterans: A Gender Comparison
Iverson, Katherine, Vogt, Dawne, Amoroso, Timothy, Maskin, Rachel, Smith, Brian

FRI 156
(Clin Res, CPA, CSA, Adult)
M - Industrialized

Relationships between Sub-Types of Childhood Abuse and Functions of Self-Harm
Gregory, Wesley, Doukas, Ashley, D’Andrea, Wendy
###Poster Session Two Presentations

**Friday, November 11, Grand Hall**  
5:30 p.m – 6:30 p.m.

FRI 208
M - Industrialized
An Open Label Pilot Study of Adjunctive Asenapine for the Treatment of Posttraumatic Stress Disorder
Davis, Lori, Norrhoilm, Seth, Pilkinton, Patricia, Badari, Badari, Moody, Felicia

FRI 209
(Clin Res, Practice, Mil/Vets, Adult)
I - N/A
Associations between Treatment Satisfaction and One-year Clinical Outcomes in OEF/OIF Veterans with PTSD
Klein, Alexandra, Moshier, Samantha, Harwell, Aaron, Rosen, Raymond, Keane, Terence, Marx, Brian

FRI 210
(Clin Res, Rape, Mil/Vets, Gender, Adult)
M - Industrialized
Exploring Military Sexual Trauma among Male Veterans
Menefee, Deleene, Voelkel, Emily, Schwartz Moravec, Margaret, Walford, Vincent

FRI 211
(Clin Res, Practice, Self-Care, Mil/Vets, VHA Chaplains)
M - Industrialized
1. VHA Chaplains’ Definitions and Approach to Treating Moral Injury: A Qualitative Analysis
McCormick, Wesley, Carroll, Timothy, Sims, Brook, Currier, Joseph, Drescher, Kent

FRI 212
(Clin Res, CSA, Fam/Int, Intergen, Lifespan)
I - Industrialized
Parental Abuse History and Child Psychopathology among Sexually Abused Youth: Examining the Contributions of Parent Psychological Symptoms and Parenting Stress
Franz, Molly, Pogue, Jessie, Meidlinger, Katie, Hansen, David

FRI 213
(Clin Res, CPA, Clin Res, Fam/Int, Intergen, Lifespan)
M - N/A
Child Maltreatment Status and Child Attachment Classification as Predictors of Parenting Behaviors
Cummins, Nicole, Skowron, Elizabeth

FRI 215
(Clin Res, Cog/Int, Older)
I - N/A
Acceptance and Mindfulness Outcomes of Posttraumatic Stress Disorder Treatment in a Sample of Older Adult Veterans
Glassman, Lisa, Wells, Stephanie, Bower, Emily, Savage, Ulysses, Wickramasinghe, Induni, Thorp, Steven

FRI 217
(Clin Res, Death, Grief, Aging, Older)
M - Industrialized
Adaptation of a Mind-body Intervention to Prevent Complicated Grief in Widowed Older Adults: A Focus Group Study in Patients and Community Providers
Bui, Eric, Grasfield, Rachel, Chad-Friedman, Emma, Rolfe, Allison, Denninger, John

Technology

FRI 220
(Tech, DV, Prevent, Adult)
M - Industrialized
Changes in Peritraumatic Dissociation and PTSD Symptoms in a Web-based Recovery System
Shoji, Kotaro, Benight, Charles, Boul, Terrance

FRI 221
(Tech, DV, Prevent, Adult)
M - Industrialized
Fractal Properties of Heart Rate Variability in a Web-Intervention for Trauma Survivors
Shoji, Kotaro, Benight, Charles, Devane, Amanda, Stearns, Shaun, Boul, Terrance
Poster Session Two Presentations
Friday, November 11, Grand Hall
5:30 p.m – 6:30 p.m.

Training/Education/ Dissemination

FRI 222
(Train/Ed/Dis, Cog/Int, DV, Adult)

Intimate Partner Violence and Victim Blaming: Factors Influencing a Common but Detrimental Response
Weingarten, Christine, Martinez-Torteya, Cecilia

FRI 226
(Train/Ed/Dis, Anx, Commun, Complex, Depr, Prof)
M - Industrialized

Opportunities for the Public Health Impact of a Dissemination and Implementation Effort in Washington State: A Novel Common Elements Treatment Approach
Peterson, Roselyn, Hughes, MacKenzie, Monroe-DeVita, Maria, Kopelovich, Sarah, Berliner, Lucy, Darnell, Doyanne

FRI 227
(Train/Ed/Dis, Practice, Train/Ed/Dis, Mil/Vets, Prof)
I - Industrialized

Sleep On This: Changing Prescribing, Access and Attitudes through Rural Provider Education
Montano, Macgregor, Sherrieb, Kathleen, Bernardy, Nancy

FRI 228
(Train/Ed/Dis, Affect/Int, Comm/Int, DV, Train/Ed/Dis, Case Workers at a Domestic Violence Shelter)
I - Industrialized

Trauma Informed Care at The Family Place: A Baseline of Staff Knowledge, Attitudes, and Beliefs Towards an Esteemed Organizational Model
Moore, Antoinette, Pagels, Patti, Gimpel, Nora

Assessment/ Diagnosis

FRI 229
(Assess Dx, Assess Dx, Cul Div, Global, Child/Adol)
- Global

Cross-cultural Evaluation of the Child and Adolescent Trauma Screen
Rosner, Rita, Sachser, Cedric, Risch, Elizabeth, Berliner, Lucy, Holt, Tonje, Jensen, Tine, Goldbeck, Lutz

FRI 230
(Assess Dx, Anx, Child/Adol)
M - Industrialized

The Role of Anxiety Control Beliefs among Youth with Posttraumatic Stress Disorder
Neill, Erin, Weems, Carl, Scheeringa, Michael

FRI 231
(Assess Dx, Illness, Child/Adol)
I - Industrialized

Trauma in Early Childhood Predicts Pain-related Functional Disability in Youth with Amplified Musculoskeletal Pain
Hildenbrand, Aimee, Weiss, Danielle, Sherker, Jennifer, Sherry, David, Daly, Brian, Marsac, Meghan

FRI 233
(Assess Dx, Depr, Sub/Abuse, Adult)
I - Industrialized

Alcohol Use and Suicidal Ideation among People with PTSD and Depression
Lv, Xin, Byllesby, Brianna, Claycomb, Meredith, Durham, Tory, Elhai, Jon

FRI 234
(Assess Dx, Chronic, Cog/Int, Ethnic, Gender, Adult)
I - Industrialized

Relationship between Trauma Number and Dissociation Symptoms Controlling for Demographics
Lv, Xin, Byllesby, Brianna, Durham, Tory, Claycomb, Meredith, Charak, Ruby, Elhai, Jon

FRI 235
(Assess Dx, Cog/Int, Depr, Adult)
A - Industrialized

Looming Cognitive Style’s Moderating Role between Posttraumatic Stress Disorder Symptom Clusters and Depression
Claycomb, Meredith, Brough, Shawna, Elhai, Jon
Poster Session Two Presentations
Friday, November 11, Grand Hall
5:30 p.m – 6:30 p.m.

FRI 236
(Assess Dx, Cog/Int, Sub/Abuse, Adult)
A - Industrialized

Rumination and Anxiety Sensitivity’s Role in the Relationship between Co-Occurring Posttraumatic Stress Disorder and Problematic Alcohol Use

Claycomb, Meredith, Lv, Xin, Durham, Tory, Byllesby, Brianna, Elhai, Jon

FRI 237
(Assess Dx, Cog/Int, Adult)
M - Global

Self-attitudes among Trauma Victims who Developed Posttraumatic Stress Disorder vs. Hoarding Disorder
Chou, Chia-Ying, Valdez, Christine, Shumway, Martha, Mathews, Carol

FRI 238
(Assess Dx, Practice, Adult)
I - Industrialized

Development of the Posttraumatic Information Processing Survey: A Multidimensional Assessment of Trauma-Related Cognitions
Valdez, Christine, London, Melissa, Lilly, Michelle

FRI 239
(Assess Dx, Assess Dx, Complex, Res Meth, Adult)
M - Industrialized

An Evaluation of the ICD-11 Trauma Interview Schedule Compared to the Clinician Administered PTSD Scale and WHODAS 2.0
Bondjers, Kristina, Arnberg, Filip, Willebrand, Mimmie

FRI 240
(Assess Dx, Assess Dx, Practice, Adult)
M - Industrialized

Psychometric Properties of the Swedish PTSD Checklist for the DSM 5
Bondjers, Kristina, Arnberg, Filip, Willebrand, Mimmie

FRI 241
(Assess Dx, Acc/Inj, Acute, Adult)
A - Industrialized

A Path Analysis of Known PTSD Risk Factors and a Predictive Screen of PTSD Risk among Single-Incident Trauma Survivors Admitted to a Level 1 Trauma Center
Hunt, Josh, Schumann, Nicholas, Nydegger, Liesl, deRoon-Cassini, Terri

FRI 242
(Assess Dx, Rape, Gender, Adult)
M - Industrialized

The Importance of Screening for Suicidal Ideation among Male and Female MST Survivors
Gerber, Holly, Monteith, Lindsey, Bahraini, Nazanin, Matarazzo, Bridget, Soberay, Kelly

FRI 243
(Assess Dx, Assess Dx, Gender, Adult)
I - Industrialized

Trauma and Psychophysiologic Reactivity: Menstrual Phase, Posttraumatic Stress Disorder, and Performance on a Loud Tones Task
Amalathas, Aneline, Curreri, Andrew, Resick, Patricia, Rasmusson, Ann, Orr, Scott, Pineles, Suzanne

FRI 244
(Assess Dx, Affect/Int, Health, Adult)
I - Industrialized

Posttraumatic Stress Symptoms and Psychological Impairment: The Mediating Role of Detachment.
Gray, Brandon, Schwenk, Haley, Lowmaster, Sara

FRI 245
(Assess Dx, Ethics, Health, Mil/Vets, Adult)
I - Industrialized

Wartime Atrocity Exposure Type, PTSD Diagnosis and Symptom Severity Prediction among OEF/OIF Veterans
Harwell, Aaron, Mosher, Samantha, Klein, Alexandra, Rosen, Raymond, Keane, Terence, Marx, Brian

FRI 246
(Assess Dx, Aggress, CPA, CSA, Adult)
M - Industrialized

Latent Classes of Juvenile Poly-victimization and Their Association with Suicide Behavior among Adults with Lifetime Traumatic Experiences: The Moderating Role of Anger Reactivity
Charak, Ruby, Byllesby, Brianna, Durham, Tory, Claycomb, Meredith, Armour, Cherie, Elhai, Jon

FRI 247
(Assess Dx, Assess Dx, Global, Health, Mil/Vets, Adult)
M - S Asia

Latent Profiles of Posttraumatic Stress, Depression, and Anxiety Symptoms in Indian Army Personnel Deployed in the Conflict Zones of Jammu Region
Charak, Ruby, Claycomb, Meredith, Durham, Tory, Byllesby, Brianna, Contractor, Ateka, Gupta, Samia
### Poster Session Two Presentations
Friday, November 11, Grand Hall
5:30 p.m – 6:30 p.m.

Poster Session Two Presentations
Friday, November 11, Grand Hall
5:30 p.m – 6:30 p.m.

**FRI 284**
(Pub Health, CPA, CSA, Ethnic, Sub/Abuse, Lifespan)
- Industrialized

Neighborhood Disadvantage, Childhood Trauma Exposure, and Alcohol Involvement in African American and White Women

Werner, Kimberly, Bender, Annah, McCutcheon, Vivia, Grant, Julia, Sartor, Carolyn, Bucholz, Kathleen, Heath, Andrew

**Research Methodology**

**FRI 285**
(Res Meth, Cog/Int, Child/Adol)
I - N/A

When Does Time Heal? Perceived Stressfulness as a Moderator of Time and Posttraumatic Growth

McDiarmid, Leah, Britton, Maggie, Taku, Kanako

**FRI 286**
(Res Meth, Cog/Int, QoL, Child/Adol)
M - Industrialized

Individual Images of Personal Growth and Posttraumatic Growth in American Youth

Taku, Kanako, Dominick, Whitney

**FRI 287**
(Res Meth, Assess Dx, Adult)
M - E & S Africa

Ranking Traumatic Event Types According to Their Importance in Predicting PTSD Risk

Conrad, Daniela, Wilker, Sarah, Pfeiffer, Anett, Elbert, Thomas, Kolassa, Iris, Kolassa, Stephan

**FRI 288**
(Res Meth, Assess Dx, Clin Res, Mil/Vets, Adult)
I - Industrialized

Anxiety Sensitivity and Distress Tolerance Profiles and Relations to PTSD: A Cluster Analytic Approach

Brown, Emily, Overstreet, Cassie, Duran, Amy, Berenz, Erin, McDonald, Scott, Amstadter, Ananda

**FRI 289**
(Res Meth, Depr, Mil/Vets, Adult)
M - Industrialized

Is the Relationship between Lifetime Stressful Events and Past-year Depression Mediated by Unit Social Support during Deployment among National Guard Members?

Sampson, Laura, Cohen, Gregory, Fink, David, Liberzon, Israel, Tamburrino, Marijo, Calabrese, Joseph

**FRI 290**
(Res Meth, Affect/Int, Cog/Int, Theory, Adult)
M - Industrialized

An Analog Test of the Peritraumatic Encoding Disruption Hypothesis: Introducing Event Segmentation as a Marker for Moment-to-Moment Processing

Sherrill, Andrew, Lilly, Michelle, Magliano, Joseph

**FRI 291**
(Res Meth, Genetic, N/A)
I - N/A

Chen, Chia-Yen, Neale, Benjamin, Smoller, Jordan

**FRI 292**
(Res Meth, Cul Div, Adult)
M - N/A

Assessment of Skin Conductance in African American and Non-African American Participants in Fear Conditioning Research: Implications for PTSD Research

Kredlow, M. Alexandra, Pineles, Suzanne, Inslicht, Sabra, Milad, Mohammed, Otto, Michael, Orr, Scott

**FRI 294**
(Res Meth, Chronic, Clin Res, Res Meth, Intergen, Lifespan)
M - Industrialized

Reliability of an Observational Mother-child Behavioral Paradigm among Highly Traumatized African-American Families

Kim, Ye Ji, Vance, Alexander, Cao, Minhnguyen, Powers Lott, Abigail, Cross, Dorthie, Bradley, Bekh

www.istss.org
